TOPOGRAPHICAL SKETCH

OF

TRAVANCORE.

Description.—Travancore (*Mal. Tiruvitankur, Sans. Srivardhanapuri,* the place where the goddess of prosperity resides), the southern portion of the ancient division of Kerala, is situated between 8° 4′ and 10° 21′ North Latitude and between 76° 13′ and 77° 38′ East Longitude. It is bounded on the north by the Native State of Cochin and the British District of Coimbatore, on the east by the Districts of Madura and Tinnevelly and on the south and west by the Indian Ocean. The extreme length of Travancore from north to south is 174 miles, its extreme breadth 75 miles and its area 7,624·84 square miles. The State is in subsidiary alliance with the British Government to which it pays an annual tribute of Rs. 8,00,000. Compared with other Native States, it is more than five times the size of Cochin and six times that of Pudukotta. It is above seven-eighths the size of Baroda, two-sevenths of Gwalior, one-fourth of Mysore and one-twelfths of Hyderabad or Cashmir. It is smaller than the Principality of Wales by about 250 square miles and bears to England and Wales together the proportion of one to eight.

Physical Geography.—Travancore is one of the most picturesque portions of Southern India. The mountains which separate it on the east from the British Districts are clothed with magnificent primeval forests, while the belt of flat country, to an average distance of 10 miles inland from the sea, is covered with an almost unbroken mass of cocoanut and areca palms which in a great measure constitute the wealth of the country. The whole surface is undulating, and presents a series of hills and valleys, traversed from east to west by numerous rivers. Nanchanad, with its numerous villages, palmyra groves and extensive paddy fields, resembles in some respects the neighbouring district of Tinnevelly. Northward, this fertile plain is succeeded by the wooded and rugged surface of the Malayalam country. The rich and variegated tract along the coast is finally contrasted with the mountainous wilds farther inland. The hill scenery has peculiar beauties, among which are the wild, rocky and precipitous acclivities and fantastic forms of the mountains in the southern parts. The valleys are studded with temples and churches. The numerous houses and gardens scattered thickly over the country give it an appearance entirely different from that of the eastern coast.

The hilly region is very extensive and is a marked feature of the country. The mountains are of every variety of elevation, climate and vegetation. Certain portions are cultivated by European and Native capitalists by whom the natural fertility of the soil is being turned to the best account. Some of the loftier mountains have a precipitous descent towards the west and are connected on that side with a succession of low hills which diminish in altitude as they approach the coast. Among the mountains a few elevated tablelands are found, which afford pasturage for cattle and enjoy a good climate for a portion of the year. To the north, the mountains rise to an elevation of 8,000 feet. The *Anamalay* mountains are the most important of these. The southernmost peak of note is the sacred *Agastiakudam* (6,200 ft.). One plateau alone (*Eravimalay* or *Hamilton's valley*) is 6 miles long by 3 wide and contains about 10,000 acres of excellent tea and coffee land. Similar smaller valleys are found in the group called the *Kannan Devan Hills*. At the head of Travancore hills stands *Anamudi* (8,837 feet), the highest peak south of the Himalayas. South of this is the lower region of the *Cardamom Hills* so called from their special product. Still further south are large tracts of forests among which lie the *Ashamboo* coffee plantations. The Hill stations enjoy an excellent climate and are resorted to by Europeans and others during the hot season. *Peermade*, about 50 miles east of Kottayam, was once the residence of a Mahomedan saint from whom the place takes its name. It is over 3,000 feet above the sea and is the centre of the coffee and tea planting industries. *Ponmudy*, north-east of Trivandrum, is also a sanitarium. The scenery from the heights is enchanting.

Numerous rivers run down from the Ghats and flow by tortuous courses, with high banks and rocky beds, into the backwaters and the sea. Most of these are navigable only near the sea. The most important of these rivers is the *Periyar* rising in the High Ranges, which after a course of 142 miles enters the backwater of Kodungalloor (Cranganore). A portion of its enormous volume of water is now diverted into Madura by the Periyar water-works. The *Pamba* (90 miles), the *Kallada* (70 miles), the *Kulakada* (70 miles), the *Muvattupuzha* (62 miles), the *Karamana* (42 miles), the *Thamravarni* (37 miles), the *Neyyar*, the *Minachil*, and the *Vamanapuram* (35 miles each,) are other important rivers.

A succession of lagoons or backwaters, connected by navigable canals, extends along the coast, from Trivandrum northwards, forming a most important means of communication. It extends from Tirur, in British Malabar, to Trivandrum; between the latter place and Quilon, there rises at Varkalay a high promontory of land, about 6 miles in breadth, the highest portions of

which in two places have been tunnelled through and the remaining portion cut open into a canal, thus making the line of water communication complete. A strip of land, from seven miles to about half a mile wide, separates these backwaters from the sea. There are however several outlets to the sea.

There are several good cart-roads in the inland parts of the country for local traffic and for communication with Madura and Tinnevelly. Railway communication between the latter town and Trivandrum has been established. As many as five tunnels had to be bored through the Ghats to extend the line from the east coast to this side.

Iron, alum, sulphur, lignite, plumbago and mica exist in the country.

The mountains and forests of Travancore afford some of the best sport to be got anywhere in India. Elephants are numerous. Tigers, leopards, bears, bison, sambur and various kinds of deer abound. Crocodiles infest, in large numbers, the lakes and rivers.

The climatic variations of the whole of India may on a small scale be experienced in Travancore. On some of the peaks, the pinching cold of the northern regions of Europe may be felt; lower down, on an elevation of between 2,000 and 3,000 feet, one meets with the bracing temperature of England, while a cloudless sky with a clear sun marks the cessation of the heavy monsoons. From January to May which constitutes the months of the hot season, there is an intense and oppressive heat which at times becomes so intolerable that some of the taluks then present the aspect of a true equatorial region.

For administrative purposes the State is divided into 34 taluks, which are grouped into 5 districts called divisions.

Population.—The total population of the State as enumerated at the Census of 1921 is 40,06,062. Hinduism is the predominant religion of the State. Its followers constitute about two-thirds of the entire population while Christians form nearly a fourth and Mahomadans, about one-sixteenth. Compared with other States and Provinces, Travancore is the most Christian territory in all India, if we except the sister State of Cochin which has the highest proportion of Christians in its population.

In point of Education, Travancore is ahead of British India and most of the other Native States and maintains the position it occupied in 1901. The proportion of literates works up to 241 per 1,000 of the population. Males number 330 per mille of the sex and females 150.

IMPORTANT TOWNS.

Trivandum.—This town forms the southern terminus of the Travancore Branch of the South Indian Railway and of a chain of backwater communication. It is the residence of His Highness the Maha Raja and Head quarters of Government. The celebrated pagoda of Sri Padmanabhaswamy within the Fort has made it a great religious centre and attracts pilgrims from all parts of India. The Fort and its neighbourhood constitute the most crowded part of the town. The military cantonment, the Government offices and other public buildings and the residences of the upper classes are picturesquely situated on small eminences each commanding a refreshing scenery of verdure all around. The town is liberally supplied with well-equipped colleges, schools and hospitals. There is a well laid-out park, with a museum and a menagerie. The seaport is at Valiathurai, about one mile from the town. It is an open roadstead, with deep water close to the shore. A pier for the landing and shipment of cargo, 450 feet in length, and fitted with two steam derricks, has recently been erected. Lengthening the pier by 50 feet and widening it, is under consideration; also the provision of storage godowns. The five fathom depth line is about 600 feet off the end of the pier, but steamers anchor in 12¼ fathoms 4/10 of a mile off shore. It is a port of call for coasting steamers when inducement offers. (*Population* 72,784).

Nagercoil.—Nagercoil stands within 7 miles of the Aramboli Pass and is the only important town south of the Capital. With Nagercoil as the nucleus, the town comprises a number of villages *viz*, Kottar, Vadiveeswaram, Ozhughanacherri and Vadaseri. Of these, Kottar and Vadaseri form the trading and manufacturing centres. The town owes much of its improvement and its position to the efforts of the Christian Missionaries. (*Population* 34,406).

Shencottah.—The head quarters of the taluk of that name lies at the foot of the Ghats on their eastern aspect. The main road that runs through it connects the British town of Tinnevelly with the port of Quilon. There are several coffee estates in its neighbourhood.

Quilon.—Quilon is one of the oldest towns of the Malabar Coast. Its natural situation and consequent commercial importance made it the cynosure of every foreign power and subjected it in its early days to political vicissitudes of no mean order. Towards the middle of the eighteenth century, the State of Quilon, also called Desinga Nadu, was annexed to Travancore. It was one of the greatest ports in Malabar. With the opening of the Railway, Quilon finds herself in direct

and easy communication with the towns of the Madras Presidency and is likely to regain her former position as an important commercial centre. The Palace of His Highness the Maha Raja on the borders of the Quilon lake, which has come to be known as the Loch Lomond of Travancore, commands an enchanting scenery. Cotton spinning and weaving and the manufacture of tiles are its chief industries. The sea-port is an open roadstead situated off a bight in the coast formed by Tangacherri point projecting slightly beyond the coast-line. During the fine weather period, from September till May, vessels can anchor in the inner anchorage in 4½ to 5 fathoms of water, 4/10 of a mile off the shore. (*Population* 25,135).

Kayankulam.—This town was formerly the capital of an independent principality of that name. In 1746 A. D., the territory was annexed to Travancore. A well-attended market is held here. Communicating by backwater with Cochin in the north and Quilon in the south by road with Madura and Tinnevelly in the east, it was a centre of trade during the early days of the Dutch influence. A Syrian Church appears to have been built at the place so early as 829 A. D. (*Population* 9,172).

Alleppey.—This is the most important commercial town in the State. Open to foreign trade towards the latter part of the 18th Century, it has long been the premier Port of Travancore, and has become an important trade and industrial centre, having backwater communication with the surrounding country. The manufacture of coir matting is carried on extensively, besides hydraulic baling of coir yarn and fibre for foreign markets. Cocoanut oil mills worked by steam power have also been established. The town has an extensive canal system, connected with the backwater, which affords considerable water frontage of immense importance to mercantile firms handling goods and produce, all transport being water-borne. As a sea-port, Alleppey owes its importance to a mud-bank off the coast, which renders the sea quite smooth for shipping operations, though it shifts its position occasionally. It is an open roadstead with good holding ground of sand and mud. It has a very fine pier 756 feet long, fitted with three hand cranes, for handling cargo, also large godown accommodation. The replacement of the hand cranes by hydraulic cranes is under consideration. The Port is closed during the S. W. Monsoon, generally from about the 15th May till the 15th September. Steamers, however, call at or near the Port during the monsoon, when weather conditions permit, and when the mud-bank is sufficiently developed to afford smooth water for shipping operations, as may be notified by the Marine Authority. (*Population* 32,074).

Kottayam.—This town, situated on the banks of the Minachil river, is the centre of the Syrian Christian community and possesses one of the most ancient Syrian churches in all Malabar. It was also the scene of the early labours of the Anglican Missionaries. It exhibits much educational activity and possesses a Second Grade College and several High Schools. The old Syrian Seminary, where English education is said to have been first imparted in Travancore, is an interesting institution. Standing at the portal of communication with the Peermade range of Hills where coffee and tea plantations are worked on a large scale, Kottayam serves as a convenient mart for the exchange of goods (*Population* 18,833).

Changanacherry.—This town was once the capital of the principality of Tekkumkur. Like Kottayam it is a centre of Christian influence and possesses the grandest Syro-Roman Church on the Malabar Coast. One of the best-attended markets in North Travancore is held here, and people flock to it from all parts. (*Population* 18,955)

Parur.—A Rajah of Parur once ruled here before its subjugation by Travancore. It is more or less surrounded by Cochin territory and at one time belonged to it. It was made over to Travancore in 1762. (*Population* 11,949).

Colachel—Is the southernmost sea-port in the State and is a Port of call for coasting steamers when inducement offers. Foreign going steamers call occasionally to load monozite and palmyra fibre for Europe. In former years Travancore coffee was prepared and exported from this Port, but this trade has now ceased. There is a group of outlying rocks in front of the town which form a partial breakwater, under the shelter of which landing and shipping operations are carried on from the beach. Steamers anchor in 7 fathoms of water half a mile off the shore. Small vessels anchor in about 5 fathoms, less than a quarter of a mile from the shore. (*Population* 7,967.)

Rules regarding Debenture Bonds.

No. D. L. 475.

REVISED RULES PASSED BY HIS HIGHNESS THE MAHA RAJA OF TRAVANCORE REGARDING THE PAYMENT OF INTEREST TO THE DEBENTURE BOND HOLDERS, THE TRANSFER OF BONDS, ETC., UNDER DATE THE 7TH JULY 1921, CORRESPONDING TO THE 24TH MITHUNAM 1096.

Enfacement for Payment of Interest.

Interest on the Government Debenture bonds of 1091 M. E. is payable at the Treasury at which the bonds have been enfaced for payment. Any holder desiring payment of interest at any other Treasury should therefore apply, along with the bond, to the Financial Secretary to Government, either direct or through the Treasury Officer concerned.

2. The Financial Secretary will advise the Treasury Officers of the issue of any bonds with interest payable at their Treasuries as also the transfers and cancelments of any such bond. When the advice is received, the Treasury Officer will make an entry in a register in Form No. A. This advice is independent of the letter forwarding the bond for delivering to the holder.

Payment of Interest.

3. An advice list in Form No. C. of the interest payable to the several holders of bonds from each Treasury, will be furnished half yearly by the Account Officer to the Treasury Officers concerned. The amounts due to the parties will be disbursed by the Treasury Officer on presentation of receipts (Form No. B.) which will be supplied to them on application to the Treasury Officer, the dates of payment being noted in the column provided for the same in Form No. C.

4. The Treasury Officer is not required to inform holders of bonds the due dates on which payment of interest on their bonds may be claimed by them at the Treasury.

Transfer of Bonds.

5. The bonds are not negotiable instruments; but the property in them may be *transferred* by endorsement. The endorsement should be written in ink and should be in the following form:—

"Transferred to ______________________________

(Full name and address)___________________________".

It should be quite clear and distinct and attested by two respectable witnesses whose names and full addresses should also be noted. Vernacular endorsements should be literally translated into English immediately below them. No transfer will be effectual until it shall have been registered in the office of the Financial Secretary to Government, to whom the bond duly endorsed as above, should be forwarded, in registered cover.

Death of Holder.

6. In the event of the death of the holder of a bond, the same will have to be forwarded to the Financial Secretary to Government for issuing a fresh bond in favour of his legal representative. The applicant should send along with the bond, a Succession Certificate under Regulation IX of 1090, or any order of a competent Civil Court entitling him to the property in the bond. Interest will thereafter be paid to the legal representative of the deceased in whose favour a fresh bond has been issued.

Exception—When application is made for the issue of a fresh bond in lieu of one which appears to stand in the name of a deceased member of a Hindu undivided family governed by the Mitakshara law or Karanavan of a Malabar Tarwad, a fresh bond will not be issued to the applicant unless he furnishes a certificate signed by the Tahsildar of his taluk, after due enquiry, to the effect (i) that the deceased belonged either to a Hindu undivided family under the Mitakshara law or was the Karnavan of a Malabar Tarwad (ii) that the bond formed part of the joint property of the family or Tarwad and (iii) that the applicant is the managing or sole surviving member of the family or Tarwad. In such cases, the fresh bond will be issued to the legal representative only after he produces an indemnity bond, with two sureties (in Form No. E.) agreeing to indemnify the Government against any loss which may arise thereby. If within two months of the publication in the Gazette of the notification on the matter by the Financial Secretary, rival claimants appear, the fresh bond will be issued only to the party producing an order of a competent Civil Court entitling him thereto.

7. The Treasury Officer should take care that arrears of interest due to deceased bondholders are paid by him to the legal representatives of the deceased, declared entitled thereto by the Financial Secretary to Government.

Payment of Interest to Joint-Holders.

8. No payment of interest should be made to one or more of the persons in whose favour a bond has been issued, except upon production, by such one or more persons of written authority from the others, to give a discharge on behalf of them.

Issue of Fresh Bonds.

9. Application should be made to the Financial Secretary for issue of fresh bonds, in the following cases, the bonds also being forwarded to him at the same time.

(*a*) When all transfer endorsement columns but one on the reverse of a bond have been used up or when anything is written on the bond across any existing endorsement or endorsements;

(*b*) When the bond is found to be worn or torn or crowded with writing;

(*c*) When the holder, or any one of the joint-holders of a bond, is dead, and application is made by the legal heir or heirs for the issue of a fresh bond;

(*d*) When the interest on the bond has to be made payable at a Treasury other than the one at which it is enfaced for payment;

(*e*) When a bond has to be sub-divided into others of smaller denominations;

(*f*) When two or more bonds standing in the name of the same person or persons have to be consolidated into one or more bonds of larger denominations, bonds being issued only for Rs. 100 or multiples of Rs. 100; or

(*g*) When an endorsement is written across the transfer columns on the reverse of the bond or otherwise than in one of the transfer endorsement cages thereon.

A fee of annas 4 is payable upon each new bond issued.

Register of Powers of Attorney.

10. A Register of powers of attorney will be maintained in the Account Office in Form No. D. and until the cancellation of such authority is brought to the notice of the Account Officer, interest will be advised to be payable only to the person so authorised to receive it.

Issue of Duplicate.

11. When a bond is lost and the holder wants a duplicate, he should advertise the loss of the bond without delay in three successive issues of the Government Gazette and also address the Financial Secretary to Government on the subject, fully detailing the circumstances attending the loss of the Bond and the dates and pages of the Government Gazette, in which the loss has been advertised. A penalty of British Rupee one is levied for the issue of a Duplicate. The amount should be remitted to the Treasury and the Treasury receipt should also accompany the application. The Financial Secretary will issue the duplicate after satisfying himself that the applicant is the registered holder of the bond, and on production, by the applicant of an Indemnity Bond with two sureties (in Form No. F.) against the claims of all persons claiming under the bond reported to be lost.

NOTE.—1. The loss or destruction of a Bond should be notified by the applicant in three successive issues of the Government Gazette, in the form following or as nearly in such form as circumstances permit:—

"Lost" (or "destroyed" as the case may be).

The Travancore Government 5 per cent Debenture Bond No... ...for Rs.............originally standing in the name of and last transferred to the proprietor by whom it was never endorsed to any other person, having been lost (destroyed), notice is hereby given that payment of the above bond and interest thereon has been stopped at the Public Debt Office and that application is about to be made for the issue of a duplicate in favour of the proprietor. The Public are hereby cautioned against purchasing or otherwise dealing with the said bond.

Place.....................

Date.....................

(Name and Address).

NOTE.—2. Whenever a bond has been lost or destroyed, the loss or destruction should, without delay, be intimated to the Treasury at which the bond stood enfaced for payment of interest, and the Treasury Officer should, after investigation, forward his report on the matter along with the necessary depositions.

Purchase and Sale of Bonds.

12. Bonds may be purchased or sold through the Agency of the Financial Secretary, and any one wishing to sell or purchase bonds should communicate his desire to him, so that intending buyers and sellers may be brought together. The holder of the bond should furnish particulars regarding the number and value of the bond which he wishes to dispose of, and the minimum rate at which he is prepared to sell it. If the intending buyer is prepared to purchase the bond at the rate fixed by the seller, the Financial Secretary will inform him the amount to be paid by him which will be sufficient to meet the cost and the commission due to the Government. This amount should be paid into the nearest Treasury, and the Treasury receipt should be forwarded to the Financial Secretary, who will then arrange with the seller to transfer the property of the bond to the name of the buyer. The transfer will be registered in the office of the Financial Secretary to Government and the bond will then be forwarded to the buyer. The amount due to the seller, *viz.*, the purchase value of the bond, minus the commission due to the Government will be made payable to the seller from any Treasury in the State.

13. A commission of two annas per cent is levied on the face value of all bonds purchased or sold through the Financial Secretary.

14. No cancellations, issues, or registration of transfers of bonds will be effected by the Financial Secretary during the 10 days previous to the 1st Chingom and 1st Kumbhom of every Malabar year.

I. Holders of land granted for Cardamom cultivation before the date on which these rules come into force shall pay a price of Bh. Rs. 10 per acre and shall have permanent rights of occupancy in their holdings. This amount may be paid in ten annual instalments of Re. 1 each commencing from $\frac{\text{16th August 1905}}{\text{1st Chingom 1081}}$.

II. Cardamom lands which now pay an assessment of Bh. Rs. 6¼ per acre shall, from the date these rules come into force pay an assessment of Bh. Rs. 2 per acre.

Lands granted for cardamom cultivation on an assessment of Bh. Re. 1 per acre for three years and Bh. Rs. 6¼ thereafter under the rules hereby repealed shall pay Bh. Re. 1 per acre for four years from the date of issue of patta and Bh. Rs. 2 per acre from the fifth year.

If patta is granted within six months of the beginning of any Malabar year such year shall be counted as one of the four years for which the reduced assessment of Bh. Re. 1 is leviable.

In the case of new lands to be granted, if the ryots enter upon the land with permission, the assessment shall be Bh. Re. (1) one per acre for four years from the date of such permission and Bh. Rs. (2) two per acre from the fifth year. But, where the lands are entered upon without permission, the maximum assessment of Bh. Rs. (2) two per acre shall be levied from the date of occupation.*

III. † [Applications for new land for cardamom cultivation must be in the printed form and accompanied by a deposit of Rs. 2 per acre.

---

* Amended as per Notification dated 3rd November 1915.

† Do. Do. 25th March 1914.

On receipt of application for land for cardamom cultivation the Superintendent shall satisfy himself that the land is one which can be granted for such cultivation without detriment to Government interests.

The applicant shall clear the boundaries and provide boundary stones. The land shall then be carefully surveyed, demarcated at Government expense and will be granted to the applicant without auction sale, at an average value of Bh. Rs. (25) twenty-five per acre.

"The purchasers of lands for cardamom cultivation are allowed to pay the said acreage value of B. Rs. (25) twenty-five per acre in nine instalments as follows:—B. Rs. (2) two per acre along with the application as deposit, B. Rs. (2) two prior to registry and the balance of B. Rs. (21) twenty-one in seven equal yearly instalments of B. Rs. (3) three.

Note.—Should any applicant fail to accept registry of the land after it has been surveyed as per his Dharkast, survey cost at rupee one per acre will be recovered from his deposit."

IV. Should land be opened before patta is issued or without special permission of the Superintendent of the Devicolam Division, proceedings will be taken under the Land Conservancy Regulation II of 1067.

V. Holders of cardamom lands may remove the undergrowth and fell such trees as it is necessary to clear in order to admit sufficient sunlight for the cultivation of cardamoms; but they shall not fell any tree exceeding 4 feet in girth at a height of 3 feet from the ground without first giving notice to the officer in charge of the Division who shall satisfy himself of the necessity to do so and then grant permission in writing. If any tree is felled in contravention of this rule, double the value of the timber as assessed by the Superintendent of the Devicolam Division shall be levied as penalty and the amount recovered as a revenue demand. It shall also be open to the Superintendent when the fellings have been extensive to recommend that the land be resumed by Government and the patta cancelled.

VI. Holders of cardamom lands may utilise the trees left for shade as supports for growing pepper, vanilla and rubber vines and with the sanction of the Superintendent of the Cardamom Hills may grow such other products as he is satisfied will not interfere with the cultivation of cardamoms.

VII. The Superintendent may permit the burning of the undergrowth in a new clearing provided the undergrowth is heaped and carefully removed from the surrounding jungle. The

holder will be held responsible should such fire cause any damage to the trees left for shade in the clearing or to the surrounding forests or gardens.

VIII. Holders may collect dead trees as fuel free of charge, but no trees shall be felled for firewood. With the permission of the Superintendent of the Cardamom Hills any holder may fell trees, except royal trees growing on his own holding for the construction of buildings necessary for the cultivation of such holding, provided that such felling does not interfere with trees left for shade. The trees so felled should be used on the estate and should not be removed outside it.

IX. No lands given for cardamom cultivation shall be of less extent than two acres; but only the extent that is fit for growing cardamom will be assessed to land revenue, the remainder although shown in the survey number will be treated as unassessed waste but shall not be cultivated.

Provided that applications for land to square off a holding may be entertained for less than two acres and granted at the discretion of the Superintendent of the Cardamom Hills on payment of the upset price without auction.

X. The assessment on cardamom lands shall be recovered in four instalments *viz.*, on the last Thulam, 1st Vrischigom, 1st Dhanu and 1st Makarom of every Malabar year.

The assessment on wet cultivation is due on the 15th of Mausi and that on dry cultivation on the 15th of Alpasy every year.

XI. The assessment (and acreage value) shall be recovered under the provisions of Regulation I of 1068.

XI A. In the case of registries in the names of more individuals than one, all the registry holders shall be held jointly and severally responsible for tharavila as well assessment and other dues (added by Notification No. 2536/L. R. dated 9-4-19).

XII. At the expiry of 30 years commencing from 1st Chingom 1081, it shall be competent to Government to revise the assessment at such rates as they may fix.

(3) Letter No. 2236/F. & M. R., dated the 14th June 1915, to the Commissioner, Devicolam.

(6) Letter No. 7155/L. R., dated the 10th September 1915, to the Commissioner, Devicolam.

(7) Letter No. 4560 of 1091, dated the 27th October 1915, from the Conservator.

At the 11th Session of the Assembly, Mr. Sanyasi Mallayan Chetti, Member, Devicolam taluk, made the following representations:—

(1) That the *tharavila* on cardamom lands should be reduced and the system of levying arrears of assessment as penalty abolished.

(2) That the Forest Rules should be relaxed so as to permit the free use of the Forests adjoining cardamom lands for grazing purposes and also for the free felling of the reserved trees on cardamom lands for the private use of the ryots.

(3) That the cardamom ryots be permitted generally to shoot such of the wild animals as are dangerous to cultivation.

(4) That the Government might afford all other facilities for the successful cultivation of cardamom lands.

The above representations were referred to the Commissioner, Devicolam, and the Conservator of Forests, for an expression of their views on the subject. Their replies have been received and considered by Government.

ORDER THEREON No. 7331/L. R., DATED TRIVANDRUM, 5TH NOVEMBER 1916.

As regards the first prayer, Government do not feel justified in reducing the existing rate of *tharavila* on Cardamom lands. They have allowed the *tharavila* to be paid in six instalments as follows:—

(1) Rupees 2 per acre along with the application, Rupees 3 per acre prior to registry and the balance of Rupees 20 in four equal yearly instalments. The penal assessment complained of has also been abolished. Government hope that these measures would give substantial relief to the ryots.

(2) The Government agree with the Commissioner, Devicolam, and the Conservator, in considering that no free grazing can be allowed on the Cardamom Hills, nor can any further concessions be given to the ryots in the matter of felling timber than those allowed by the existing Cardamom Rules.

(3) With regard to the third prayer of the Member, the Government do not see their way to comply with the Member's request.

(4) The fourth prayer is vague and calls for no consideration.

The Government apprehend that the grievances of the cardamom ryots, so far as the enforcement of the rules by the Forest Department is concerned, are due more to their ignorance of the existing rules than to the rigour of Forest policy. The Commissioner, Devicolam Division, will therefore be requested to arrange for the existing Cardamom Rules being given wide publicity in the cardamom area by a wide distribution of the Rules, both in English and in the Vernaculars, among the ryots.

(By order),
A. J. VIEYRA,
Chief Secretary to Government.

Exceptions:—

(1) Cows, bulls, and buffaloes, the property of the subjects of Travancore, will be allowed to graze free, in all reserves and plantations other than those closed against grazing under the rules; or by publication of a special notification in the Government Gazette, provided such cattle are covered by a printed free permit or permits issued by the Divisional Forest Officer or Range Officer.

(2) In the case of cows and buffaloes, calves under one year old will be exempted from payment of any fee.

(3) All domestic animals of the subjects of Travancore shall be allowed to graze free in unreserved lands.

(4) The following concessions are also granted so far as the High Range Forest Division is concerned,

(i) Cereal cultivators are permitted to graze a pair of bullock for every five acres of land owned and actually cultivated by them, free of tax.

(ii) Proprietors or Managers of Tea and Coffee Estates are permitted to graze 10 head of their own cattle for every 100 acres of estate, free tax. This right is transferable from one estate to another.

(iii) Butchers may import cattle for slaughter under a free permit provided such cattle are not kept beyond a fortnight after importation.

III. Goats will be excluded from all the Reserves and Plantations in the Southern Division. In the other Divisions they may be allowed to graze in places specially permitted by the Conservator of Forests.

IV. In the case of animals falling under clause (*b*), (*c*), (*d*) or (*e*) of Rule II *supra*, only half the rates will be charged for returning in the same season. This rule does not apply to the High Range Forest Division.

V. Each season will be a period of six months, *i. e.*, from 1st Chittrai to end of Purattasi, and from 1st Alpasi to end of Panguni. In the case of all animals in the High Range Forest Division and in the case of sheep in the Southern Division the grazing period will correspond to the Malabar year and the grazing fees will be consequently double the rates fixed fo ix months in Rule II *supra*.

VI. Persons wishing to graze their cattle or other animals shall apply to the Divisional Forest Officer, or other officer authorised in this behalf stating how many cattle they wish to graze, for what length of time and at what places, and pay the prescribed fee in advance. Such officer will then issue a permit in the printed form appended to these rules, specifying the number of cattle, the amount of fees received and the grazing locality or block, &c.

Provided that grazing shall not be permitted on areas covered with young growth as follows:—

Coppice under 10 years old,
Plantations under 15 years old,

And provided also that the Divisional Forest Officer may limit the number of cattle allowed to graze in any locality and withdraw the permit and exclude the cattle if he finds that the forest growth is suffering from their presence.

VII. Free passes will be granted on application to the Divisional Forest Officer or to the respective Range Officers.

VIII. Each cattle owner must appoint a responsible herdsman who should be not less than 15 years of age and whose name will be entered in the permit. The Police or Chowkey Officer, shall, if he finds any irregularity, immediately report the fact to the Forest Range Officer concerned. At least one herdsman is required for every 50 head of cattle or 100 of sheep. The Forest guard or watcher in charge of the block or compartment will check the cattle as often as possible. If any cattle-owner wishes to appoint a new herdsman, he should inform the Range Officer concerned and get the necessary corrections made in the permit. Cattle owners must understand that they will be held responsible for any damage done to the forests through the negligence of their herdsmen by cattle straying &c.

IX. Cattle found grazing in the places closed to them, or in places not mentioned in the permit, will be impounded and the owners will be liable to punishment under Section 21 or the rules under Section 22 or under Section 24 of the Forest Regulation, as the case may be.

X. Cattle found in the forests without a permit, or in numbers in excess of, or different in description from, those mentioned in the permit, will be impounded and the permit may also be cancelled by the Divisional Forest Officer. In the case of foreign cattle, the owner or herdsman will be liable to be punished under the Forest Regulation or Rules framed thereunder, in addition to the impounding the cattle and the cancellation of the permit, if any.

XI. When, on account of scarcity of grass or water, it is desired to move cattle from the grazing block mentioned in the permit, to another grazing block, application accompanied by the permit should be made to the local officer in charge of the Range, who shall promptly grant the request if unobjectionable, and report the fact to the Divisional Forest Officer.

XII. Cattle herdsmen and permit-holders shall not carry or use fire-arms or carry any cutting weapons within the limits of any Forest Reserves or Plantations, nor shall they carry torches or kindle fire in places other than those specially set apart for cooking, or set fire within the limits of Forest Reserve or grazing block or outside it, so as to endanger its safety from fire.

Infringement of this rule will entail cancellation of the permit or permits in addition to any other punishment that the law provides.

XIII. The Divisional Forest Officer may prohibit the grant of a permit to any person or cancel a permit for specified reasons. An appeal against such order shall lie to the Conservator

of Forests within two months from the date of the Divisional Forest Officer's order and the Conservator's order thereon shall be final.

XIV. All permits shall be in triplicate, and the entries therein shall be in the current Language (Malayalam or Tamil) of the locality. The original should be given to the owner, the duplicate sent to the Range Officer who will submit it to the Divisional Forest Officer with his monthly account for check, and the triplicate retained by the issuing officer for record and check.

RULES FOR THE PENNING OF CATTLE IN GRAZING AREAS.

XV. In cases of real necessity, penning of cattle will be allowed in grazing blocks recommended by the Range Officer after *personal inspection*, provided there is not more than one pen in any compartment and subject to the following conditions:—

(1) The penning of cattle shall only be allowed in those penning localities or *tholus* which may be notified from time to time by the Divisional Forest Officer.

(2) The penning shall be done only on obtaining a printed pen-license, in the annexed form, from the Range Officer, who will issue the license, only for cattle for which grazing permits have been previously obtained.

(5) There shall be at least one herdsman in charge of every cattle pen containing 500 cattle or less, and he shall keep the grazing permits of the cattle penned with him to be shown on demand.

(6) Herdsmen accompanying the cattle shall be allowed free use of unclassified timber, bamboos and reeds required for their huts and for firewood, in quantities to be fixed by the Divisional Forest officer.

(7) The herdsmen shall not kindle fire outside the limits of the pen, nor allow fire to spread beyond it, and they shall be bound to give information coming to their knowledge, to the nearest Forest Officer, of any forest offence, committed or damage done by others with as little delay as possible. They shall also render such reasonable assistance as may be required of them by any Forest Officer in putting out or preventing the occurrence of

fires and in the detection or the prevention of the commission of any forest offence. Cattle owners will be held responsible for any damage that their herdsmen may cause to the forest besides the penalty provided by the Forest Laws.

(8) The license shall not ordinarily be transferable, but when the ownership of the cattle covered by a license changes hands, the license also shall go with it.

(9) Failure to abide by any of these rules will entail cancellation of the license and the grazing permit or permits by the Divisional Forest Officer, besides rendering the license-holder or his herdsman or both as the case may be, liable to any other punishment which the law provides.

2. The Rules issued under Section 21 (*g*) of Regulation II of 1068, and published at page 113 of the Government Gazette dated the 13th February 1906 are hereby repealed.

3. Subject to the concessions granted to hillmen by the Rules dated the 14th December 1911, it shall not be lawful for any one to hunt or shoot within any Reserved Forest, or any land at the disposal of the Government though not included in a Reserved Forest, unless he has obtained a license permitting him to do so. This period shall, for this purpose, be deemed to be a closed season. But the Conservator may, with the sanction of the Government, declare by notification in the Gazette, any Reserved Forest or any portion thereof to be closed against shooting, either permanently or for any prescribed period as may be considered necessary. He may also likewise declare any lands at the disposal of the Government and not included in a Reserved Forest to be closed against shooting for any specified period.

2. Any person holding land within or adjoining a Reserved Forest or within or adjoining land at the disposal of the Government though not included in a Reserved Forest, and wishing to protect his land from the ravages of animals, may apply to the Divisional Forest Officer concerned, setting forth the reasons for his application, and upon that officer satisfying himself that the application is *bona fide* for the defence of property and that the applicant understands the Rules prohibiting the lighting of fires, the Divisional Forest Officer may grant a free license, permitting the shooting of destructive animals within three miles of the applicant's property.

3. A license shall not be transferable and it shall not run beyond the last day of Audi of the year in which it was granted. It must be shown on demand to any officer of the Forest, Police or Land Revenue Departments.

4. A license authorises the holder to kill all animals, other than those mentioned in the next para, provided that such holder shall not, under any circumstances, kill more than two heads of each of the mature males of bison, ibex, spotted deer, sambur and such other animals as may be hereafter specified by the Government, under cover of a single license in any year.

5. It shall not be lawful for any person, whether holding a license or not to shoot at, kill, capture, pursue or attempt to kill or capture any elephant or any female or immature male of bison, ibex, sambur and spotted deer, at any time, or any other animal which the Government may, by Notification in the Gazette, specify at any future date:

Provided that owners and occupiers of Estates may be allowed to drive away by shooting any animals that may be found to be doing damage to their cultivation.

6. Beating or the setting of traps or snares for game is forbidden except with the special Permission of the Divisional Forest Officer.

7. No license is required for fishing in Reserved Forests, or the lands at the disposal of the Government though not included in a Reserved Forest, which are not closed by special order, but, if this privilege is abused or for any other reason, the Conservator of Forests may, with the sanction of the Government declare, by Notification in the Gazette, all or any rivers, streams or lakes, situated within any Reserved Forest or lands at the disposal of the Government though not included in a Reserved Forest, to be closed against fishing without a license.

8. The use of mesh nets, poison and dynamite or other explosives in water is absolutely prohibited anywhere within the limits to which these Rules apply.

9. Within the limits to which these Rules apply no person shall, at any time of the year, shoot at, trap or snare any of the insectivorous birds specified in the schedule attached to the Game Rules.

10. Whoever commits any breach or infringement of these Rules is liable, on conviction, to punishment under Section 21 of the Forest Regulation.

NOTIFICATION.

A draft of the Puduval Rules as proposed to be revised was published under Notice No. L. R. 10100/2123 of 1914, dated the 8th November 1920, in the Government Gazette dated the 9th November 1920. The intentions of Government in revising the Rules and the objects intended to be secured by the revision were explained in the Notice publishing the draft Rules. A period of three weeks was allowed within which objections or suggestions relating to the draft Rules could be sent to Government, and this period was, in view of the popular demand, extended by nine weeks. Though the period of 12 weeks allowed for public criticism expired on the 5th February 1921, Government decided that the consideration of the draft Rules might be postponed, so as to have the benefit of the representations on the subject at the Seventeenth Session of the Sri Mulam Popular Assembly.

The Government have carefully considered the large volume of opinions and criticisms that has been received, the numerous articles on the draft Rules that have appeared in the Newspapers, English and Vernacular, the individual memoranda sent up, the resolutions at public meetings, and the representations at the last Session of the Assembly on the subject, and have made several substantial modifications in the draft Rules. The following are the more important among the modifications made:—

1. The expressions "*bonafide* occupation" and "valuable improvements" have been defined in Rule 5, with illustrations.

2. The time for preferring objections to the registry of lands has been raised from 15 to 30 days in Rule 10.

3. A new Rule has been added after Rule 10 to the effect that notices should be issued to, and served on, the owners of registered lands adjoining the land to be assigned, calling upon them to state their objections, if any, to the proposed registry.

4. Rule 12 has been modified so as to allow unoccupied lands being sold in five-acre blocks, instead of in ten-acre blocks, with a view to afford greater facilities to middle class people to obtain lands in auction.

5. The provision for the recovery of the value of unreserved trees standing on Puduval lands has been deleted from Rules 12 and 13 and Schedule I, and *thadivila* will be charged only for the reserved trees as in the existing Rules.

6. Rule 14 has been revised so as to provide for the publication in the Government Gazette of notices of sales by public auction.

7. A new provision has been inserted in Rule 15 prohibiting any one individual from bidding for more than fifty acres at a sale. The deposit by purchasers at auction sales has been reduced from 25 to 20 per cent of the purchase money and discretion has been vested in the officers competent to confirm sales to extend the time for payment for a period not exceeding 15 days.

8. In fixing *tharavila* on occupied lands under Rule 17, it has been laid down that due regard should be had to the money and labour spent by the occupants on their improvement.

9. Rule 23, regarding the levy of assessment on excess areas in registered holdings disclosed by survey, has been deleted.

10. Provision has been made for the remission of *thadivila* to the extent of Rs. 10 per acre in the case of concessional grants to depressed classes and poor families under Rules 24 and 27.

11. The rates of annual tax for Town lands have been reduced by nearly fifty per cent, in Rule 33 and Schedule II.

12. The maximum area of Town lands grantable without auction for extension of existing sites, under Rule 35, has been raised from half an acre to one acre.

13. The previous consultation of the Conservator of Forests prescribed in Rule 43 in regard to the registry of lands adjoining Reserved Forests has been restricted to lands situated within *one* furlong of the boundaries of Reserved Forests.

14. The maximum area of Government land assignable without auction for the beneficial enjoyment of registered holdings, under Rule 46, has been raised from one acre to five acres.

15. A new provision has also been inserted under Rule 46 giving discretion to Division Peishkars to register without auction Government lands up to a limit of five acres for growing manure leaves or fodder crops.

16. Rule 47 has been omitted, and Rule 48 has been modified so as to lay down that no land shall be assigned, without the sanction of Government, to any person other than a subject of His Highness the Maha Raja.

17. The concession of paying the *tharavila* and other dues in instalments under Rule 53 has been extended to registries in which the amount payable exceeds Rs. 500.

18. The period within which the Dewan may revise the decisions of Revenue Officers has been reduced from three years to two years in Rule 59.

19. One of the main objections urged against the Revised Rules is the effect they would have on the applications under the existing Rules pending in several stages of enquiry. This has been remedied by the insertion of a new provision at the end of the Rules to the following effect, *viz.*, pending applications for the registry of Puduval lands shall be disposed of under the existing Rules where preliminary orders have been passed by the Tahsildars under Rule 19 of those Rules, or by the Division Peishkars under Rule 21 (2), and also at the discretion of the Peishkars where they have received reports under Rule 20 from Tahsildars recommending registry, even though no preliminary orders may have been issued by the Peishkars under Rule 21 (2).

20. The rates of value of reserved trees on Puduval lands in Part (ii) of Schedule I, have been prescribed in Travancore, instead of in British currency, and in so doing, a reduction in the rates has also been effected in some cases.

The Puduval Rules, in their final form, are now published for general information.

(By order),
N. RAJARAM RAO,
Chief Secretary to Government.

Huzur Cutcherry,
Trivandrum, 31st March 1921.

Revised Rules, regarding the registry of Puduval lands, sanctioned by His Highness the Maha Raja, under date the 31st March 1921/18th Meenom 1096.

PART I.

PRELIMINARY.

1. These rules supersede the rules dated the 24th September 1914 and all existing orders on the subject of Puduval registry.

2. (i) "Puduval land" means and includes :

(a) *Poramboke* (surveyed and unassessed) transferred to *Tharisu* (തരിശു).

(b) *Tharisu* (surveyed and assessed). This includes *Thanathuchitta* and *Nirthal* lands.

(c) Unassessed waste (unsurveyed) (കാട്ടുതരിശു).

(ii) "Division Peishkar" includes the "Commissioner, Devicolam Division".

(iii) "Proverthikar" includes a "Pakuthi Accountant".

(iv) "Assignee" means a person to whom a land is assigned whether by public auction or otherwise and includes his heirs.

3. All applications for registry of Government lands falling under any of the classes mentioned in Rule 2 (i) shall be made to the Tahsildar of the Taluk in which the land is situate. Every such application shall be in Form A and shall contain a full description of the land with reference to the classification in Rule 2 (i) as well as the situation, extent and boundaries of the land, and shall also be accompanied by a rough sketch of the land applied for.

PART II.

Applications for Registry.

4. When the application relates to *poramboke* land (occupied or unoccupied), the Tahsildar shall register it in the Register of applications for *poramboke* and, either personally or through his Assistant Tahsildar, inspect the land in the first instance to ascertain whether or not it is necessary in the public interests to retain it as *poramboke*. If, on inspection, the Tahsildar is satisfied that it should be retained as *poramboke*, he shall record his opinion on the application and reject it. An endorsement shall be given to the applicant to that effect and the Tahsildar should take prompt steps under the Land Conservancy Regulation to evict the occupant, if any.

5. When the Tahsildar finds on inspection that it is not necessary to retain the land applied for as *poramboke* and that the land does not fall under the prohibited items mentioned in Rule 38, he shall prepare a clear sketch showing the position and boundaries of the land as well as the adjoining *poramboke* or registered lands and forward the same to the Division Peishkar with a Statement in Form B recommending the transfer of the land from the head of *poramboke* to that of *tharisu*. He shall also ascertain and record, in his own hand and under his initials, whether the land has been occupied *bona fide* and contains valuable improvements, and also the estimated *tharavila* per acre chargeable on the land with due regard to the situation of the land with reference to roads, rivers, markets and the like. If the land is a reclamation from a backwater, river, tank or canal or is part of a road in charge of the P. W. D., the Tahsildar should first consult the P. W. D. in Form C and submit that Form with the reply of the P. W. D. to the Division Peishkar along with the Statement in Form B.

Explanation I.—In this and the following rules, a land will be considered to contain valuable improvements when the occupier thereof has, to the extent of his resources, expended a material amount of money or labour with a view to fitting it up for cultivation or otherwise improving it.

Explanation II.—In this and the following rules, occupation will be *bona fide* if the occupant's intention is the improvement of his condition in a reasonable manner and not speculation for his own undue benefit or with a view to prevent others from getting the land registered in their names.

Illustration I.—The occupation of a vacant land between the owner's property and a river or canal so as to get a frontage to the property or the occupation of a small extent of land adjoining a registered holding for the more beneficial enjoyment of the latter will be considered *bona fide*.

Illustration II.—If a person, taking advantage of the resources at his disposal, occupies a large extent of land with the deliberate intention of excluding others from the land and getting the same registered in his name, his occupation is not *bona fide* even though he may have made valuable improvements on the land.

6. On receipt of the Tahsildar's Statement, the Division Peishkar may, if he is satisfied, after inspection if necessary, that the land applied for need not be retained as *poramboke*, sanction the transfer of the land from the head of *poramboke* to that of *tharisu*. If, however, he is not so satisfied. he shall refuse to sanction the transfer.

7. On receipt of the sanction of the Division Peishkar for the transfer of the land from the head of *poramboke* to that of *tharisu*, the Tahsildar shall cause the necessary entries to be made in the Land Revenue Registers and transfer the application to the Register of Puduval applications. The Tahsildar shall then forward the application and sketch to the Proverthikar and obtain a report from him containing particulars regarding the extent and nature of the land (wet or dry), number and description of taxable trees, if any, standing thereon, the assessment to be fixed for the land with reference to the Settlement *tharam* of the adjoining lands and the rates of assessment on the taxable trees on the land with due regard to the rates applicable to trees of similar description in the nearest block of registered land. If the Division Peishkar refuses to sanction the transfer, the Tahsildar shall, on receipt of such communication, reject the application and give an endorsement to that effect to the applicant.

8. When an application relates to *tharisu* or unassessed waste mentioned in class (i) (*b*) or (i) (*c*) of Rule 2, the Tahsildar shall have it entered in the Register of Puduval applications immediately on receipt and forward the same to the Proverthikar. The Proverthikar shall examine and verify the particulars given in the application by reference to the Settlement Register and other records, and shall also ascertain whether the land falls under any of the heads mentioned in Rule 38. If the land falls under any of the heads mentioned in Rule 38, he shall simply report the fact to the Tahsildar without taking any further steps. The Tahsildar shall then reject the application and give an endorsement to the applicant stating the reasons for rejection. If the land applied for does not fall under any of the heads mentioned in Rule 38, the Proverthicar shall inspect the land and prepare a clear sketch showing the extent and boundaries of the land applied for and also its position with reference to the adjoining lands, registered as well as unregistered, and shall forward the same to the Tahsildar together with a report giving particulars regarding the nature of the land (wet or dry), number and description of taxable trees, if any, standing thereon, the assessment to be fixed for the land with reference to the Settlement *tharam* of the adjoining lands and the rates of assessment on the taxable trees on the land with due regard to the rates applicable to trees of similar description in the nearest block of registered land.

9. The Tahsildar, shall then, either himself or through his Assistant Tahsildar inspect the land, and if satisfied that the land may be brought under registry, he or the Assistant Tahsildar shall ascertain and record, in his own hand and under his initials, whether the land has been occupied *bona fide* and contains valuable improvements and also the estimated *tharavila* per acre chargeable on the land with due regard to its situation with reference to roads, rivers, markets, and the like. Before the Tahsildar is satisfied that a land falling under class (i) (b) or (i) (c) of Rule 2 may be registered, he should carefully consider whether the land or any portion thereof, though not now recorded as *poramboke*, is useful, or will be useful in the near future, for any public or communal purpose such as for roads, canals, markets, collection of leaf manure, the grazing of cattle, &c. If in his opinion the land or a portion thereof is or will be so useful and should be converted to *poramboke* and reserved, he should either reject the application for registry or exclude from registry such portion of the land as should be reserved, and submit proposals to the Division Peishkar for its conversion to *poramboke*. He shall also give an endorsement to the applicant about the same.

10. The Tahsildar shall, soon after the receipt of the Proverthikar's report under Rule 7 or after the local inspection referred to in Rule 9, publish a notice under his signature calling upon all persons who may have any objection to the

registry of the land or who may have any claims to the land, to appear before him within 30 days of the publication of the notice, and prefer their objections or claims, if any. The notice shall be published by affixing copies in the Taluk and Village Offices.

11. The Tahsildar shall, in accordance with the provisions contained in this rule, also issue a notice to the owners of the adjoining registered lands calling upon them to state their objections, if any, to the registry within the time mentioned in the notice.

(i) Every notice under this rule shall be authenticated by the signature of the Tahsildar.

(ii) The notice shall be served on the owner personally by delivering or tendering a copy thereof or in his absence upon any agent authorised to accept service, or delivered or tendered to any adult male member of the family at the owner's usual place of abode or business.

(iii) When a notice is served under sub-rule (2), the officer serving it shall require the signature of the person to whom the copy is so delivered or tendered to an acknowledgment of service endorsed on the original notice.

(iv) If no person mentioned in sub-rule (2) can be found or if such person refuses to sign the acknowledgment, the serving officer shall affix a copy of the notice in some conspicuous part of the owner's place of abode or business.

(v) The serving officer shall endorse on the original notice the time when and the manner in which the notice was served.

(vi) When a notice is returned under sub-rule (4), the Tahsildar shall, after examining the serving officer on oath touching the proceedings, declare that the notice has been duly served or order such service as he thinks fit.

(vii) If the Tahsildar is of opinion that a notice cannot conveniently be served by a serving officer, the notice may be sent by Anchal or Post in a registered cover addressed to the owner's place of abode or business.

12. If, after hearing the objections or claims, if any, preferred under Rule 10 or 11 within the time fixed, the Tahsildar finds that the land is not registerable, he shall reject the application regarding his reasons for so doing and give an endorsement to the applicant accordingly. If, on the other hand, he finds that the land is registerable, he shall give an endorsement to that effect to the objectors or claimants and adopt the procedure detailed below for bringing the land under registry.

PART III.

Assignment of unoccupied lands.

13. (1) All unoccupied lands available for registry shall, subject to the provisions of Rules 24 to 28, 35 and 46 (i) and (ii) and unless otherwise directed by Government, be sold by public auction together with the reserved trees standing thereon, at an upset price to be fixed in each case by the officer conducting the auction. The upset price shall be equivalent to the estimated value of the reserved trees standing on the land *plus* the estimated *tharavila* according to the importance of the land, fixed under Rule 5 or 9 as the case may be, and the cost of demarcation and survey.

(ii) All unoccupied blocks exceeding 5 acres each in extent, whether comprising entire Survey Nos. or forming only a portion thereof, shall, before they are disposed of in auction, be ordinarly cut up into smaller blocks of 5 acres, more or less, according to the configuration of the ground &c. It shall, however, be open to the Tahsildar, with the sanction of the Division Peishkar, to get the lands in particular localities split up into blocks smaller in extent than 5 acres each, for special reasons. The Tahsildar shall forward to the officer authorised to make the survey the applications, if any, received for the registry of the land or portions thereof and also the sketches prepared under Rule 5 or 8. Such officer shall, on receipt of the requisition from the Tahsildar cause the land to be demarcated and surveyed and cut up into blocks of required

size and return the applications to the Tahsildar, together with the plotted sketches prepared by him.

(iii) If the entire area of the blocks is 5 acres or less, the Tahsildar need not make a requisition to the officer referred to above but shall get the land sub-divided, if necessary, and demarcated and surveyed by the Proverthikar and a sketch, drawn to scale, prepared by him. This sketch should be checked on the ground by the Tahsildar or the Assistant Tahsildar.

(iv) The above procedure applies to land already surveyed. If, however, the land applied for is unsurveyed waste (കാട് തരിശ്), it shall first be demarcated and surveyed by the Survey Department and the survey connected with that of the adjoining surveyed area.

14. (i) The value of all reserved trees standing on Puduval lands to be registered shall be calculated in the manner and according to the rates prescribed in Schedule I appended to these Rules.

(ii) In the case of blocks split up and surveyed by the Survey Department, the valuation of trees standing thereon should be made by the Surveyors while conducting the survey and demarcation, and the valuation lists should be forwarded by them to the Superintendent of Survey or other authorised officer along with the records of survey of the blocks concerned.

(iii) In the case of lands not referred to the Survey Department, such valuation should be done by the Proverthikar when he demarcates and surveys the lands under Rule 13 (iii) and his valuation should be checked in detail by the Tahsildar or the Assistant Tahsildar before fixing the upset price of the land.

(iv) In the case of lands containing royal trees (teak, blackwood, ebony and sandalwood), an accurate list of the number and description, such as girth and height, of such trees shall be made out by the Surveyors or the Proverthikar, as the case may be, and forwarded to the Tahsildar along with the valuation lists of the reserved trees. The number and description of all royal trees on every block of land assigned shall be entered in the Village B Register. A declaration shall also be taken from the assignee to the effect that he will take care of all the royal trees standing on the land at the time of assignment or that may come into existence subsequent to it. A copy of the list of royal trees shall be furnished by the Tahsildar to the Forest Department as each case is disposed of. The Proverthikar shall also complete one round of inspection, once in three years, of all registered lands in his village, satisfy himself that the royal trees in each land as per list stand on the land, prepare a list of royal trees that have newly come into existence on the land and get the signature of the land owner to the list in token of its accuracy.

15. (i) On receipt of plotted sketches and valuation lists of reserved trees from the Survey Department or from the Proverthikar, as the case may be, under Rule 13 or 14, the Tahsildar shall cause a proclamation of the intended sale by public auction to be made. He shall also fix a suitable place at which the auction will be conducted.

(ii) Every such proclamation shall be in the Vernacular of the taluk and shall state the time and place of sale and shall specify

(*a*) the land to be sold by describing the Survey Number or Sub-division Number the extent and the boundaries of the land;

(*b*) the assessment proposed to be levied upon the property;

(*c*) the upset price of the land as per Rule 13 (i); and

(*d*) the conditions subject to which the sale will be made.

(iii) The proclamation shall be exhibited for fifteen days on the land itself as well as in the neighbouring villages and in the Taluk office, and shall also be published in the Government Gazette. The Tahsildar may, at his discretion, alter the time and place of auction, if necessary, provided that not less than 14 days' public notice shall be given of every such alteration.

16. On the day fixed for the sale of the land, the land shall, as pro-claimed, be put up to auction, block by block if it consists of more than one block, and sold to the highest bidder above the upset price; Provided however that no single person should be allowed, directly or indirectly, to bid for more than 50 acres of the land advertised for sale. The sale shall be conducted subject to the following general conditions:—

(i) The highest bidder above the upset price shall be declared to be the purchaser of the land, and if any dispute arises between two or more bidders at the same price, the land shall be immediately put up to auction again at the last preceding undisputed bid and sold.

(ii) The person declared to be the purchaser shall pay immediately after such declaration a deposit equivalent to 20 per cent of the amount of the purchase money to the officer conducting the sale and in default of such deposit, the property shall forthwith be put up to auction again and sold.

(iii) The full amount of the purchase money shall, subject to the provisions of Rule 53, be paid by the purchaser before the office closes on the 30th day from the date of sale of the property, or if the 30th day be a Sunday or other holiday, then on the first office day after the holiday. The officer competent to confirm the sale may, however, for sufficient reasons, extend the time for payment for a further period not exceeding 15 days.

(iv) In default of payment within the period mentioned in the last preceding sub-rule the deposit shall be forfeited to Government and the land shall be resold and the defaulting purchaser shall forfeit all claims to the property or to any part of the sum for which it may be subsequently sold. Provided, however, that the Peishkar may, at his discretion, for reasons to be recorded in writing, refund the whole or any portion of the deposit.

(v) Any deficiency of price which may happen on a resale under sub-rule (ii) or (iv) by reason of the purchaser's default and all expenses attending such resale shall be recoverable from the defaulting purchaser under the provisions of the Revenue Recovery Regulation as arrears of land revenue.

(vi) No officer or other persons having any duty to perform in connection with any sale shall, directly or indirectly, bid for, acquire or attempt to acquire any interest in the land sold.

(vii) (*a*) Any person interested in the sale of any land may, within 30 days from the date of the sale, move the Division Peishkar if the sale is confirmable by the Division Peishkar, or the Dewan in other cases, to set aside the sale on the ground of any material irregularity in publishing or conducting it. The Division Peishkar or the Dewan, as the case may be, may, on information received or of his own motion, set aside a sale held by an officer subordinate to him on the ground of any material irregularity in publishing or conducting it or on the ground that the price fetched is not adequate. In such cases an order in writing to stop further proceedings should be passed by him and should reach the subordinate officer concerned within two months from the date of sale.

(*b*) For the purposes of this rule the Division Peishkar or the Dewan may cause an enquiry to be made into the alleged irregularity.

(*c*) No order shall be passed setting aside any sale without giving due notice to the purchasers.

17. Subject to the provisions of the previous rule, when the entire extent of a land sold is 10 acres or less, the sale may be confirmed by the Tahsildar, even though the land may have been sold in more blocks than one; when the extent exceeds ten acres but does not exceed 100 acres, the sale conducted by the Tahsildar shall be subject to confirmation by the Division Peishkar, although the land may be split up into bocks of about 5 acres before such sale. Where the entire extent of the land exceeds 100 acres, the auction sale shall be conducted by the Division Peishkar or by his Assistant and the result

of such sale should be reported to Government for confirmation. The provisions contained in Rules 15 and 16 regarding the procedure for the conduct of sales will, as far as may be, apply to the sales conducted by the Division Peishkar or his Assistant.

PART IV.

Assignment of occupied lands.

18. Lands occupied *bona fide* containing valuable improvements shall be assigned to the occupants without auction on recovery of an adequate *tharavila* which should be fixed by the Tahsildar or the Assistant Tahsildar, after personal inspection, with reference to the prevailing market value of similar lands in the neighbourhood and with due regard to the money and labour spent on their improvement, and on recovery also of the *thadivila*, the back arrears of assessment, if any, and the cost of demarcation and survey.

19. The sub-division, demarcation and survey of such lands shall be regulated by the provisions relating to them contained in Rule 13 (ii) to (iv).

20. The valuation of reserved trees standing on all lands brought under registry without auction shall be made by the Proverthikar irrespective of the area limit, in the manner and according to the rates prescribed in Schedule 1 appended to these Rules. In making the valuation, the trees, if any, already cut and removed by the occupant shall also be estimated and their value included. The *thadivila* lists prepared by the Proverthikar shall be checked by the Tahsildar or the Assistant Tahsildar by personal inspection before recommending the registry of the land.

21. (i) All cases of registry of land without auction, on the ground of *bona fide* occupation and valuable improvements, shall be reported by the Tahsildar for the orders of the Division Peishkar when the area exceeds five acres in the case of dry lands and one acre in the case of wet lands. In all other cases the Tahsildar may himself order the registry.

(ii) The report to the Division Peishkar under the previous sub-rule shall contain particulars as to the age of the occupation and the nature and approximate value of the improvements, and also the *tharavila*, *thadivila*, arrears of assessment and cost of demarcation and survey proposed to be charged. The Division Peishkar shall, either himself or through his Assistant, inspect the land, if he considers it necessary to do so, and then pass his decision.

22. In the case of lands occupied *bona fide* and containing valuable improvements, the portion covered by the improvements, together with any additional area that may be found to be necessary for its convenient holding and beneficial enjoyment, shall alone be granted on registry to the occupant without auction sale. If the total area to be so registered in the name of one individual exceeds 25 acres, the case should be referred by the Division Peishkar for the orders of Government.

23. If, in the case of an occupied land, the Tahsildar or the Division Peishkar decides that the land shall not be registered without auction on the ground that the occupation is not *bona fide* or does not contain valuable improvements or both, the unauthorised occupant shall be evicted under the provisions of the Land Conservancy Regulation before the land is sold in auction.

PART V.

Concessional Grants.

24. In the case of members of such communities as are declared by Government, from time to time, to be "depressed classes", lands will be assigned subject to the following concessions:—

(1) The lands will be assigned to them without auction sale.

(2) An area not exceeding a maximum limit of 3 acres for a single family will be assigned to each family free of *tharavila*. The grant of an area exceeding 3 acres to a single family shall not be made without the sanction of Government.

(3) Assessment at the prevailing rates will be charged on the land

(4) If the value of reserved trees standing on the land to be assigned does not exceed Rs. 10 per acre, no *thadivila* will be charged. But in cases where the tree value exceeds Rs. 10 per acre, the amount in excess of the value calculated at Rs. 10 per acre will be recovered as *thadivila*. If the applicant is not agreeable to pay the excess amount of *thadivila* due, the Tahsildar shall dispose of the whole of the tree-growth by auction and grant the land alone on registry.

(5) All back arrears of assessment will be remitted.

(6) The above concessions will be applicable to members of the depressed classes irrespective of their religion provided they are subjects of His Highness the Maha Raja.

25. The survey and demarcation of these lands and the calculation of *thadivila* thereon shall be done, on the lines indicated in Rules 13 and 14 *supra*, either by the Survey Department or by the Proverthikar as the Division Peishkar may decide. The valuation of reserved trees shall be checked by the Tahsildar or the Assistant Tahsildar.

26. The Division Peishkar should freely consult the Director of Agriculture, the Director of Industries, the Registrar of Co-operative Societies, and Associations formed for the purpose of ameliorating the condition of depressed classes, with a view to give full effect to these concessions.

27. Any alienation by the assignees of lands granted under Rule 24 to persons other than members of their own communities without the express sanction of Government shall be void. If any alienation is made in contravention of this Rule, the land may be resumed by Government.

28. Similar concessional assignments without auction may also be made, subject to a maximum of 3 acres to a single family, in the case of families about whose poverty the Division Peishkar is thoroughly satisfied, even though such families may not belong to the classes referred to in Rule 24. The grant of an area exceeding three acres to a single family shall not be made without the previous sanction of Government.

PART VI.

ASSIGNMENT OF TOWN LANDS.

29. Lands available for registry within town limits shall be split up into suitable blocks not exceeding one acre each and sold by the Division Peishkar in public auction, at the spot as a general rule, at an upset price to be fixed by him in each case in the manner specified in Rule 34.

30. No place shall be classed as a town for the purposes of the above rule unless:—

(*a*) the Municipal Regulation is in force therein, or

(*b*) (i) the place has a population of not less than 3,000 inhabitants residing in houses more or less contiguous, and

(ii) has a distinctly urban character such as that of a market town.

31. The Government shall publish in the Gazette a list of towns classed as above with a description of their limits and may from time to time alter or add to the list by Notification in the Gazette.

32. The work of sub-division, demarcation and survey of such lands and also the valuation of the reserved trees thereon, if any, shall be attended to by the Survey Department, on the lines indicated in Rules 13 and 14 *supra*.

33. The tax on Town lands to be hereafter assigned, either with or without auction, should be determined according to the following method. The annual tax applicable to each case shall be fixed by the Division Peishkar, by roughly ascertaining the market value of the land with reference to the sale value of similar adjoining lands and dividing three-fourths of that market value by the figure twenty-five: the quotient thus obtained shall be rounded off so as to bring it under one or other of the rates specified in Schedule II and fixed as the annual tax on the land. The annual tax so fixed shall in no case exceed Rs. 5 chs. 20 per cent even if the quotient should be higher, but shall be subject to periodical revision simultaneously with the general settlement of the taluk in which the town is situate. In making such revision, the then letting value of the site, exclusive of the value of any buildings or superstructures thereon or other improvements, shall alone be taken into consideration.

34. The remaining one-fourth of the market value ascertained under Rule 33 together with the *thadivila* and the cost of demarcation and survey shall be the upset price for the sale of the land in auction.

35. The Division Peishkar may assign Town lands without auction under the following circumstances and subject to the following conditions:—

(*a*) Where an application is made for a mere extension of an existing property, the land, provided it does not exceed one acre, may be sold to the applicant, subject to the appropriate annual tax and initial payment calculated in the manner explained in Rules 33 and 34.

(*b*) Where the applicant is too poor to purchase the land at auction or belongs to a class notified by Government as being depressed, the land may be assigned to him subject to the payment of an annual tax either at the rate arrived at under Rule 33 or at a lower rate not below Fanams 50 per acre as the Division Peishkar thinks proper, provided that the extent of the land to be assigned to one grantee does not exceed one-fourth of an acre in either case. In granting concessions to a member of the depressed class under this sub-rule care should be taken to word the patta in such a manner as to prevent the benefit of the concessions being claimed by transferees not intended to benefit by them.

In all cases not covered by clause (*a*) or (*b*) above, the sanction of Government shall be applied for and obtained by the Division Peishkar for assignment of Town lands without auction. In the case of lands vested in Municipal Councils, the Division Peishkar shall consult the Councils and refer the case for the orders of Government.

36. The grant of lands within town limit other than those governed by the foregoing rules in this Part shall be regulated by the general rules contained in Parts I to V and Part VII.

PART VII.

General Provisions.

37. No portion of a survey field shall be assigned unless it is in a single block and not in patches and is readily accessible from without: provided also that the rest of the field is left in a compact and convenient block suitable for future assignment and not left in patches or narrow strips.

38. Lands of the following descriptions shall not be granted without the orders of Government:—

(1) Lands within half a mile of the Quilon Railway Station, lands within two furlongs of the Varkalay and Alwaye Railway Stations, and lands within a furlong of other Railway Stations;

(2) Lands within a mile on either side of the Railway line from Quilon to Trivandrum, south of the Veli backwater.

(3) Lands on the sea-coast within 200 yards of mean sea-level,

(4) Lands in the Padmanabhapuram, Trivandrum, and Quilon Divisions, whether *poramboke* or otherwise, within the limits leased to the Travancore Minerals Company, Ltd., or to Messrs. Hopkin and Williams, Ltd., for the exploitation of monazite sand.

39. The *tharavila* on *puduval* lands, whether occupied or unoccupied, shall not go below the following minima rates: -

DRY LANDS.

(1) Rs. 10 per acre.
(2) Rs. 25 per acre for reclamations from rivers, canals and backwaters.

WET LANDS.

(3) Rs. 50 per acre throughout the State.

40. (i) The assessment for *puduval* lands shall be fixed according to the following instructions:—

(ii) For *puduval* lands (dry) in rural areas, the assessment shall be subject to a minimum rate of 7 fanams and a maximum of 15 fanams per acre as per Schedule given below :—

THARAM.	RATE PER ACRE. Fs.	Chs.
I.	15	...
II.	13	...
III.	11	2
IV.	10	...
V.	8	2
VI	7	...

(iii) If the lands contain taxable trees, they shall also be brought under assessment at the rates specified in Schedule III annexed. Allowance will be made for the area covered by such trees, according to the scale adopted at the Settlement and shown in Schedule IV appended.

(iv) For *puduval* lands registered as wet, the rate of assessment shall be fixed on the basis of the Schedule of Settlement rates for wet lands and with reference to the rates of wet lands in the neighbourhood: Provided that the whole of the paddy assessment shall be commuted into money at 11 chuckrams per para.

41. Joint registries in the names of more individuals than one should generally be discouraged; but if in any case such registry is allowed, all registered holders shall be held jointly and severally responsible for the *tharavila thadavila*, purchase money, assessment and *puduval kudichika*.

42. Puduval *kudichika* or arrears as per assessment fixed under Rule 40 shall be charged for the period of occupation but it shall not exceed five years' back assessment.

43. When the *puduval* land applied for falls under any of the following descriptions, the Tahsildar shall invariably report the case for the orders of the Division Peishkar, irrespective of the area limit :—

(1) Lands within one furlong of the boundaries of Reserved Forests.

(2) Lands within Port limits.

(3) Lands within the limits of Municipal Towns.

(4) Lands containing minerals, quarries, &c.

(5) Lands affected by irrigation projects executed or to be executed at the cost of Government.

(6) B class lands relinquished by Railway Companies.

(7) Lands sold for arrears of revenue and bought in by Government,

(8) Lands exceeding two acres in extent and situated within a radius of ten miles from the town of Trivandrum, the distance being calculated from the Eastern Fort Gate.

(9) Lands within a mile of the outer limits of a town as notified under Rule 31.

44. In dealing with cases of the descriptions given in Rule 43, the Division Peishkar, shall, before passing orders, consult the Municipal Council in the case of lands within Municipal limits, the Port Officer and the Excise Commissioner in regard to lands within Port limits, the Chief Engineer in regard to lands affected by irrigation projects, and the Conservator of Forests in regard to lands within one furlong of Reserved Forests, and if he differs from any of these officers, he should take the orders of Government in the matter. But in the case of lands falling under clause 9 of Rule 43, the Peishkar should have particular regard to the possibility of the lands being required in the near future for a public or Government purpose.

45. In the case of lands exceeding 2 acres and situated within a distance of ten miles from the town of Trivandrum, the Division Peishcar shall apply for and obtain, the previous sanction of Government for the disposal of the lands.

46. (1) If the land applied for is contiguous to a registered holding and does not exceed five acres and when it is the only property between the registered holding in question and the adjoining Porambokes, such as road, river, canal or backwater, the land shall be assigned to the owner of such registered holding without auction subject to the payment of adequate *tharavila* and other dues.

(ii) When the Division Peishkar is satisfied by enquiries made personally or through his Assistant that a land not exceeding five acres is required by a registered land owner for growing either manure leaves or fodder crops, he may dispense with auction and assign the land to the applicant on payment of adequate tharavila and other dues.

47. No land shall be assigned without the sanction of Government to any person other than a subject of His Highness the Maha Raja.

48. When a road, cart-track, footpath or channel runs through the land applied for, the extent required on account of such communications, subject to a maximum width of 44 yards and a minimum width of 10 feet, shall be reserved for the use of the public. Roads and cart-tracks should be laid out in easy gradients of 1 in 20 or flatter, so that they may be convenient for cart traffic.

49. In splitting up large fields into small blocks, due reservation should be made for necessary roads, footpaths, channels and all other communal needs.

50. The newly demarcated pathways channels &c., under Rules 48 and 49 *supra* shall be classified as *porambokes*.

51. In cases in which an order sanctioning the assignment of a puduval land without auction has been passed or received by the Tahsildar, he shall issue a notice to the assignee calling upon him to pay the tharavila and other dues, if any, within a period of 30 days from the date of notice. It shall however be open to the Officer sanctioning the assignment, for sufficient reasons, to extend the time for payment for a further period not exceeding 15 days. If, within the time allowed for payment, the whole amount or the first instalment under Rule 53 is not paid, the assignment shall be deemed to have been cancelled.

52. When the assignment has been completed and the *tharavila*, *thadivila*, and cost of demarcation and survey, or the balance of purchase money, as the case may be, and arrears of assessment, if any, have been paid by the assignee, the Tahsildar shall issue a patta in duplicate in Form D annexed and obtain the signature of the assignee in the duplicate patta.

Note.—Pattas issued for *puduval* lands are not chargeable with stamp duty under Regulation IV of 1080.

53. The whole of the dues mentioned in the preceding Rule shall ordinarily be recovered in one lump. In cases, however, where the amount due by a single assignee exceeds Rs. 500, the same may, at the discretion of the officer competent to sanction the assignment of the land, be allowed to be paid in five equal yearly instalments. This concession is allowed only to the subjects of His Highness the Maha Raja. In cases where payment by instalments is allowed, the patta shall be issued after all the instalments are paid.

54. In every case in which the dues are allowed to be paid in instalments, the assignment will be subject to the following *conditions, viz.*,

(*a*) that, till all the instalments are paid, the property in the lands assigned shall vest in the Government.

(*b*) If the assignee defaults to pay any instalment, the Government may either (i) cancel the registry in which case the instalment or instalments already paid by the assignee shall be liable to be forfeited to Government, or (ii) direct the recovery of the whole of the unpaid purchase money from the assignee under the Revenue Recovery Regulation in force for the time being.

In every case in which the dues are allowed to be paid in instalments, an agreement shall be taken from the assignee, embodying the above conditions.

55. In the case of dry lands, the assessment shall be levied for the year in which the registry is ordered, if it is completed within the close of the second quarter; but in the case of wet lands, no assessment shall be levied for the year of assignment unless a crop has been actually taken out of the land.

56. The disposal of puduval lands should be in strict accordance with these rules. Any departure from these rules requires invariably the sanction of Government.

57. Nothing in these rules shall be held to debar Government from disposing of any *puduval* lands otherwise than under these rules at their discretion as heretofore.

58. (i) There shall be an appeal from every original decision or order passed by the Tahsildar under these rules to the Division Peishkar, and similarly from every original decision or order of the Division Peishkar to the Dewan. All appeals shall be presented within two months from the date of the decision or order appealed against or the date of communication thereof as the case may be. In computing the period, the day on which the decision or order appealed against was pronounced or communicated and the time required for obtaining a copy of it shall be excluded. On all copies issued shall be entered the date of the decision or order, the date of the application for copy, the date fixed for receiving the copy and the date on which the copy was ready for delivery. Any person interested in the matter may appeal. Appeals in *puduval* cases need not be stamped.

(ii) The appellate authority may admit an appeal after the expiry of the period of limitation, provided he is satisfied that the appellant had good and sufficient cause for not presenting the appeal within such period.

(iii) The appellate authority may confirm, vary or cancel the decision or order appealed against.

(iv) The decision of the authority making the assignment if no appeal is presented, or of the authority to whom the appeal lies, if an appeal is presented, is final, and no second appeal shall be admitted.

59. (i) But, if at any time within two years of the original or appellate decision, the Dewan is satisfied both that the decision was passed, either

(1) under a mistake of fact, or

(2) owing to fraud or misrepresentation or

(3) in excess of the limits of the authority possessed by the officer passing it, and that the interests of Government or of the public are affected thereby, he may set aside, cancel or in any way modify, the decision.

(ii) When a superior authority revises an order of a subordinate officer declining to assign a piece of land, such authority should merely direct that the land shall be assigned under the Puduval Rules. The Tahsildar or Division Peishkar, as the case may be, should then reentertain the case on his file and dispose of it under the rules.

60. No appeal shall be admitted unless accompanied by a certified copy of the decision or order appealed against. No officer shall decide a case in appeal without giving all the interested parties notice to appear and an opportunity to be heard.

61. (1) All decisions or orders, original or appellate, shall be incorporated with the records of the case. They should be communicated orally to the parties who happen to be present, but to those that are absent, their substance should be communicated in writing free of charge.

(ii) Certified copies of the decisions or orders should be given to interested parties as a matter of course on their applications and on payment of prescribed fees.

62. No decision in a *puduval* case shall be given effect to until the period prescribed for appeal has expired or until an appeal, if preferred, has been disposed of.

63. These rules shall come into force on the date on which they are published in the Government Gazette, and all assignments of land shall thereafter be made in accordance with them. Provided however that, in the case of pending applications for the registry of *puduval* lands—

(1) assignments shall be made under the existing rules if a preliminary order has already been passed,

(i) by the Tahsildar under para 5 of Rule 19, or,

(ii) by the Division Peishkar under para 2 of Rule 21 of the existing rules;

(2) Division Peishkars may, if they think fit, assign lands under the existing rules in cases where they have received reports from Tahsildars under Rule 20 of such rules, even though they may not have issued preliminary orders under Rule 21 of these rules.

By order,

N. RAJARAM RAO,

Chief Secretary to Government.

FOOT NOTE TO SCHEDULE I—PART (ii).

METHOD OF VALUATION.

The following instructions are laid down for the valuation of Reserved trees :—

(1) No tree which is less than 24 inches in girth shall be valued.

(2) The tree should be measured at a height of $4\frac{1}{2}$ feet from the ground. The height should be taken to a point where a main branch leaves the stem.

(3) The cubical contents of the stem (timber) should be found out by the following formula :—

$$\frac{\left(\frac{\text{(Girth)}}{4}\right)^2 \times \text{length}}{144} = \text{cubical contents.}$$

Girth is taken in inches and length in feet.

Having thus obtained the cubical contents of the tree, the value should be calculated at the rates given in this part, after ascertaining, with reference to Part (i) of Schedule I, the Group in which the Pakuthi wherein the tree stands falls.

Example.—Wanted the value of a *kongu* tree in Kondur Pakuthi of the Minachil taluk, 60 inches in girth and the length of which is 36 feet.

$$\text{Cubical contents of the tree} = \frac{\left(\frac{60}{4}\right)^2 \times 36}{144}$$

$$= 56\cdot25 \text{ cubic feet.}$$

Kondur Pakuthi as per Part (i) of Schedule I falls under Group II, and the value of a cubic foot of *kongu* is $24\frac{1}{2}$ chs. for Group II.

∴ the value of the tree $= 56\cdot25 \times 24$ chs-8 cash.

$=$ Rs. 49-6 chs-2 cash.

Rules for the sale of Waste lands on the Travancore Hills for coffee or tea cultivation, passed by His Highness the Maha Raja, under date the 28th November 1913, as amended by Notifications Nos. 1418/L. R., 4401/L. R. and 2046/L. R., dated the 20th February 1915, 5th July 1916 and 31st March 1917 respectively.

1. Waste land, in which no rights of private proprietorship or exclusive occupancy exist, and which may not be reserved as hereinafter provided, may, *until further notice,* be sold under the following rules:—

2. Every application for land shall be addressed to the Chief Secretary to the Government, or to the Peishkar or the Commissioner of the Division in which the land is situate and shall contain the following particulars:—

(*a*) the estimated area of the lot applied for and

(*b*) the situation of the lot and its boundaries, as accurately as can be stated.

The application shall also be accompanied by a sketch of the land applied for.

3. No lot shall ordinarily exceed 500 acres. But a person may apply for several contiguous lots, each not exceeding the above limit.

4. Every lot shall, as far as possible, be compact, and shall ordinarily include no more than one tract of land capable of being surrounded by a ring fence, and when the lot touches a public road, navigable river, canal or backwater, the length of the road or water frontage shall not ordinarily exceed one-half of the depth of the lot, and in all other cases the blocks shall be so laid out that, as far as practicable, their length shall not exceed half their depth.

5. No lot shall be sold until it has been demarcated with durable boundary marks and surveyed.

6. On receipt of an application under Rule 2, the Peishkar or the Commissioner of the Division shall ascertain whether the lot applied for is available for sale and forward the application along with his views thereon to the Chief Secretary to the Government.

7. If, on receipt of an application under Rule 2 or of a report under Rule 6, the Government have reason to believe that the lot applied for is saleable under these rules, the applicant will be called upon to give such security, not exceeding the estimated cost of the demarcation and survey, by deposit of cash or otherwise, as may be deemed necessary and sufficient, unless the land has been already surveyed and demarcated. A deposit paid as above required will be refunded at the sale under Rule 14.

8. If the applicant fails to furnish security under Rule 7, within (6) six weeks from the date of demand, his application shall be null and void.

9. On receipt of the security required under Rule 7, the Government will, as soon as possible, cause the land applied for to be demarcated and surveyed. The Government may then either advertise the lot for sale by public auction on a given day to be fixed, so as to admit of the notice required in Rule 10 being given, or dispose of it by private sale according as they deem fit.

10. The advertisement, in case the land is to be sold by public auction, shall be in English and Malayalam, and it shall specify the locality, extent and boundaries of the lot, the annual assessment, and the place, time and conditions of the sale. It shall ordinarily be posted for three months on the land itself, as well as in the neighbouring villages, and in the offices of the Dewan Peishkar or the Commissioner of the Division and the Tahsildar of the taluk. The Government will at their discretion fix the time and the place of auction and nominate the officer by whom the auction is to be conducted, and may alter all or any of them, if necessary, provided that not less than 14 days' notice shall ordinarily be given of every such alteration, and that no land shall ordinarily be sold until it has been advertised as aforesaid for three full months. A notification of the intended sale will also be inserted in the Travancore Government Gazette.

1. The Division Peishkar, or the Commissioner in the case of the Devicolam Division, shall send a written notice of the place and time of sale, as also any alteration under the provisions of Rule 10, to the applicant, but no party shall have the right to have the sale cancelled in consequence of the non-receipt of such notice, or delayed in consequence of the non-appearance of the applicant.

12. An applicant withdrawing his application prior to the sale of the lot, will be entitled to the refund of so much only of his deposit, where deposit has been paid by him under Rule 7, as may not have been expended. Where no deposit has been paid, he will still be liable to make good any expense which the Government may have incurred in consequence of his application and its withdrawal.

13. On the withdrawal of an application, it shall be discretional with the Government to proceed with the sale of the lot or not, as they consider best in the public interests.

14. The upset price will be British Rupees (25) twenty-five an acre, *which will include all survey expenses.* If the original applicant (who may have paid the deposit) be the purchaser, he shall receive credit for his deposit in payment. Otherwise, the amount of the deposit shall be paid to him from the sale proceeds.

15. If, before the time of sale, no claim of private proprietorship, or of exclusive occupancy or of any other right incompatible with the sale of the lot by public auction or by private arrangement under these rules, be preferred the lot shall, as advertised, be put up to auction and sold to the highest bidder above the upset price, subject to an annual assessment of one British Rupee on every acre of land granted. The land will be free of assessment for three years on condition that a quarter of it is cleared and planted within the first two years, failing which the whole of the assessment for the three years shall be levied in the third year, or in other words, the assessment will be levied from the date of the completion of the sale and recovered as arrears.

16. The sale shall be conducted under and subject to the following conditions:—

(1) The highest bidder above the upset price shall be the purchaser of the lot; and, if any dispute arises between two or more bidders at the same price, the lot shall be immediately put up again at the last preceding undisputed bidding and resold.

(2) The person declared to be the purchaser shall pay, immediately after such declaration, a deposit of 10 per centum on the amount of his purchase money, to the officer conducting the sale, and in default of such deposit the property shall forthwith be put up again and sold.

Should a Society with limited or unlimited liability elect with the approval of the Registrar to appropriate any portion of its reserve to a charitable purpose, such purpose shall be clearly defined in the bye-laws of the Society and it shall not be other than a charitable purpose as defined in Section 2 of Regulation II of 1082.

XV. (*a*) The reserve fund in a registered Society with limited liability shall be invested or deposited in one or more of the modes mentioned in Section 32 of the Regulation.

(*b*) The reserve fund in a registered Society with unlimited liability may, unless the Registrar by a special order direct it to be invested in the manner mentioned in (*a*) above, be utilised in the business of the Society or invested or deposited in the ways mentioned in Section 32 of the Regulation.

XVI. (1) In the case of a dispute touching the business of the Society between members or past members of the Society or persons claiming through a member or past member or between a member or past member or persons so claiming and the committee or any officers, a reference in writing may be made by any party to the Registrar.

(2) The Registrar shall have power on receipt of such reference either to decide the dispute himself or to refer it for decision to the arbitrator appointed by him or to several arbitrators of whom one may be appointed by him and one other by each of the parties to the dispute.

(3) The Registrar, the arbitrator or arbitrators shall have power to administer oaths, to require the attendance of all parties concerned and of witnesses and to require the production of all books and documents relating to the matter of the dispute by the same means and in the same manner as is provided in the case of a Civil Court under the Code of Civil Procedure.

(4) After hearing the parties to the dispute and examining such witnesses and documentary evidence as may be produced, the Registrar or arbitrator or arbitrators shall give a decision or award in writing and where there are several arbitrators, the opinion of the majority shall prevail.

(5) Such decision or award shall on application to the Civil Court having local jurisdiction, be enforceable as a decree of such Court.

(6) Similarly in the case of a dispute relating to a debt due to a society by a member or a past member or persons claiming through a member or past member, a reference in writing may be made by either party to the Registrar (Vide Notification No. 948/L. R. dated 9-2-18.)

XVII. Procedure to be adopted by Liquidator.

(*a*) When the registration of a Society is cancelled under Section 40 of the Regulation or when no appeal has been made under clause 2, Section 39 of the Regulation against the order of the Registrar under that Section cancelling the registration of a Society or where such an appeal has been dismissed; the liquidator shall forthwith take charge of the books of the Society in order to take necessary steps to wind up its affairs and shall at once publish by such means as he may think proper, a notice

All orders passed by the liquidator under this clause shall be submitted to the Registrar for approval, before action is taken to enforce them under clauses (*h*) and (*i*) below.

(*d*) For the above purpose the liquidator may issue summonses to persons whose attendance is required either to give evidence or to produce documents. He may compel the attendance of any person to whom a summons has been issued and for that purpose issue a warrant for his arrest.

(*e*) The liquidator shall send all such notices, summonses or warrants for service to the District Munsiff concerned.

(*f*) The District Munsiff, upon receipt thereof, shall proceed, as if such notices, summonses or warrants have been issued by him and shall return them to the liquidator with the record (if any) of the proceeding taken with regard thereto.

(*g*) The liquidator should keep short notes of the depositions of the persons thus summoned to give evidence.

(*i*) A copy of the above order accompanied, if necessary, by a list of the property of each member or past member against which the decree will have to be enforced should be filed in the Civil Court having local jurisdiction, to be enforced as laid down in clause (*a*), sub-section (5) of Section 41.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHA RAJAH OF TRAVANCORE NO. 2680 DATED THE 18TH SEPTEMBER 1908.

Read again the Revised State Life Insurance Rules, passed with the sanction of His Highness the Maha Rajah under date the 16th August 1906.

ORDER THEREON.

The present rules enforce insurance on all public servants permanently entertained in the service on or after 1st Thye 1073. Several complaints have been received regarding the oppressive way in which the scheme is said to have been working, especially in the case of the poorer public servants. The scheme *as a compulsory one*, has, in the opinion of Government, been tried long enough and it has been all through unpopular. His Highness' Government consider that it may be well left to each man to decide in what form he should provide for those dear to him, and they resolve to make insurance *optional* hereafter in the case of every public servant, irrespective of the date of his entertainment in the service.

2. There is no provision in the present rules for withdrawal from insurance if the person insured wishes to do so. Some provision for the purpose appears necessary, and Government direct that a provision be inserted in the rules, permitting withdrawal *at any time at the option of the person insured,* the latter being paid back the sum total of all the premia paid by him up to the date of his withdrawal.

3. Further, the rules now in force do not insist upon medical examination for further insurance. It appears to Government desirable to prescribe such examination for further insurance also, as a person in perfectly good health when first insuring, may fall ill subsequently and his health may be so far impaired as to render him ineligible for further insurance. His Highness' Government therefore direct that, in the cases of all future proposals for further insurance, the proposers should undergo medical examination, before the proposals are taken up for consideration.

4. The State Life Insurance Rules, as now further revised, are appended to this order. They will come into force at once.

STATE LIFE INSURANCE.

REVISED STATE LIFE INSURANCE RULES.

In these rules :

(a) " Proposer " means the person whose life is proposed be insured.

(b) " Insured " means the person who has insured his life under these rules.

(c) "Policy" means the written document containing the contract for the payment under these rules of an endowment bonus in consideration of the premium paid by the Insured.

(d) "Pay" means the remuneration paid to an officer in respect of any permanent office held by him in the service of Government, in respect of which office he may become entitled under any rules, which are now or which may hereafter be in force, to a pension, but shall not include any fees accruing to any officer in respect of such office.

(e) "Premium" means the periodical payment for any policy.

2. All public servants holding permanent appointments *may* insure their lives under these rules.

Provided that the age of the officer insuring does not exceed 45 years and his salary is not below Rs. 10.

3. Ten per cent of the pay of the Insured shall be recovered every month as premium and credited to Government from the month following that of his last birthday till the insured shall complete 55 years or in the event of his dying earlier, till his death, in consideration of which a bonus (according to the table appended to these rules) shall be payable from the Government Treasury to the insured or his representative or assignee as the case may be on his completing the age of 55 years or at his death, if earlier. Fractions of a rupee other than half-a rupee shall be excluded in calculating the monthly premium.

4. The age of the Proposer shall be taken to be the age at his last birthday.

5. Whenever the pay of the Insured is permanently increased, further insurance *may* be effected for such bonus as will cover the surplus premium available.

6. When an Insured ceases to be in the service of Government before completing the age of 55 years, he may elect either to continue to pay the premium due on his policy till it becomes mature, or withdraw from insurance. Provided, however, that dismissed officials, who have been ordered by Government to be included in the list of officers not eligible for re-entertainment in Government service, shall not have the option to continue to pay the premium.

7. * If an Insured wishes to withdraw *at any time* from insurance, he may surrender his policy and apply for the surrender value of the bonus assured thereby, which will be the sum total of all the premia paid by him up to the date of such withdrawal.

8. If an Insured be degraded for any cause, he may either continue to pay the full premium on his Policy or discontinue payment of the difference between such premium and that due on his reduced pay the bonus payable being in the latter case

Vide also Rules 7, 20, 21 and 22 modified by Notification No. G. 5176 dated 17th August 1910 appended.

such portion of the original bonus as is proportionate to the premium paid.

9. The business of the State Life Insurance Scheme shall be managed by the Financial Secretary to Government, or any other officer specially authorised in this behalf. The account portion of the work shall be attended to in the Central Account and Audit Office.

10. The Financial Secretary to Government or other officer specially authorised in this behalf may, with the Dewan's sanction, frame such subsidiary rules for the transaction of business as may be found necessary.

All matters not provided for in these rules and all doubts about the construction or interpretation of the rules shall be placed before the Dewan by the Financial Secretary or other officer aforesaid, and the orders thereon of the Dewan shall be final.

11. All receipts and disbursements on account of the State Life Insurance shall be carried to a separate head of account, and funds, belonging to this account shall at the end of each month be invested in such manner as Government may prescribe.

12. A Public servant proposing to insure his life under these rules, shall submit his proposal in Form No. 1 written in his own hand whenever possible, and signed in the presence of his immediate superior who will, in his turn, sign the certificate to the effect that he has read and explained the form to the Proposer, whose signature was affixed in his presence, and that the entries made therein (especially those relating to the age, the date of birth, pay and the date of first permanent appointment in service on Rs. 10 or above of the Proposer) are correct and forward the same in a sealed cover to the head of the department concerned.

13. The head of the department concerned will, after examining the Proposal, forward the same to the Medical Officer who may be appointed by Government in this behalf, requesting him to examine the Proposer and record his opinion regarding his age and health in the certificate appended to the Proposal.

Government may, however in any case, dispense with the medical examination contemplated in the first para of this rule and accept a certificate of health produced by the Proposer from a competent Medical Officer.

Note:—The arrangement sanctioned for the medical examination is as follows:—

(*a*) If the proposer's pay is Rs. 20 or less, he shall be examined by a medical officer in independent charge of an institution.

(*b*) If his pay is more than Rs. 20, but not more than Rs. 100, he shall be examined by a medical officer not below the rank of an Assistant Surgeon.

(*c*) If his pay exceeds Rs. 100, the medical examination shall be conducted by a medical officer not below the rank of a Deputy Surgeon.

14. It shall be the duty of the Medical Officer to examine the Proposer and record his remarks on the back of the Proposal and forward the same direct to the Durbar Physician in a sealed cover, after obtaining the signature of the Proposer to the declaration prescribed therein.

15. The Proposal and the Medical report shall then be examined by the Durbar Physician and forwarded to the Financial Secretary or other officer specially authorised in this behalf, with his opinion, which shall be final. The Durbar Physician may, if he deems necessary, call a Medical Board to examine any Proposer before passing his final opinion. In all cases where the Medical Board is convened, the opinion of the majority shall be final. In cases of equality of votes, the Durbar Physician shall have a casting vote.

16. If the Proposer is declared to be fully eligible, the Financial Secretary or other Officer aforesaid, shall issue a Policy in Form No. 3 and arrange to give intimation of the acceptance of the Proposal to the Proposer through his immediate superior. If a Proposal is not fully eligible, the age of the Proposer shall be taken to be his age *plus* the years recommended by the Durbar Physician to be added on, and a policy in Form No. 3 A, shall be issued for the amount of the bonus which the age so taken would entitle him to. The difference between the bonus thus entered in the policy and that payable if his age had been accepted without any addition shall however, be divided by the difference between his age and his 55th year, and the quotient shall be annually added to the bonus specified in the Policy until his death, if it happens before his 55th year, and paid along with the said bonus. If he lives to the age of 55, the amount of bonus payable shall be the same as that which would have been payable if his age had been accepted without any addition.

17. The Financial Secretary or other officer specially authorised in this behalf shall forward the policy to the Head of the department in which the Proposer may be employed, or to the Officer in charge of the Treasury from which his pay is disbursed, for delivery to him on payment of the first premium in cash or deduction from his pay. The date of payment of the first premium shall be the date of the policy, and shall be entered therein by the officer realising the premium before delivery.

18. When an Insured wishes to further insure his life, he shall submit a Proposal in Form No. 2. The procedure prescribed in rules 12 to 16 supra shall be applicable to this further insurance.

19. On an Insured completing the age of 55 years, the sum assured by his Policy less the amount (if any) on account of arrears of premia, will be paid to him or to his assignee, after the surrender of his policy, and on the production of a certificate of identity; but if he dies before completing the age of 55 years, the amount due will, on production of satisfactory evidence of death and of the claim to the bonus and on the surrender of the

policy, be paid to his legal representative or assignee. If there be doubt or dispute as to the person entitled to receive the bonus it shall be paid after production of satisfactory proof of the claimant's right.

20. † The premia shall be payable in advance and be recovered monthly by deduction from the pay of the Insured.

21. † When an Insured is absent from duty on leave with allowances, the premium shall be realised when such leave allowances are drawn. If he should obtain leave without allowances or be suspended from service, the past premium, if not otherwise recovered, shall be a debt on his policy carrying interest at 4 per cent per annum, and shall be recovered as arrears from his future pay, if any, in instalments not exceeding 10 per cent of such pay, in addition to the current premium.

22. † When an Insured who has ceased to be in the service of Government has elected to continue to pay premium till his policy matures, he may be allowed by the Financial Secretary or other officer specially authorised in this behalf, to pay such premium in advance monthly, quarterly, half-yearly or yearly into any Government Treasury. Fifteen days' grace shall be allowed when the premium is payable monthly and a grace of one month when it is paid otherwise. If the Insured fails to pay the premium within the days of grace, he shall be deemed to have withdrawn under rule 7 and he shall be paid back the surrender value of the bonus assured which will be the sum total of all the premia paid by him up to date.

23. Every Insured shall be supplied with a Premium Receipt-book (Form No. 4) in which payment of each premium shall be acknowledged by the Officer realising the same.

If an Insured should apply for the issue of a duplicate of the Premium Receipt-book, because the original is lost or damaged, the same shall be issued to him by the Financial Secretary or other officer specially authorised in this behalf, on his paying a fee of Re. one.

24. If an Insured should apply for the issue of a duplicate of the policy, because the original is lost or damaged the same shall be issued to him by the Financial Secretary or other officer specially authorised in this behalf on his paying a fee of one Rupee.

25. False information furnished by an Insured or production by him of any false evidence in connection with the insurance of his life, shall render his policy null and void, and the premia paid by him shall be forfeited to Government.

26. Government reserve to themselves the right to add to, or modify or altogether cancel, these rules in regard to all *Future* applicants.

27. These rules do not apply in respect of appointments, service in which does not count towards pension under the pension rules.

28. These revised Rules shall come into force at once.

11. The intending depositor may sign a declaration in Form No. B that he has read and accepted the Savings Bank Rules. If he be unable to write, he must attend personally and affix his mark or seal to the declaration, which must be attested by the signature of a witness. If he should apply in person, a copy of these rules will be given to him to read or they will be read and explained to him, should he be unable to read. If he should not apply in person, a copy of these rules with the form of declaration will be sent to him and he must present the declaration duly signed.

12. When the declaration is presented, duly signed with the amount of the first deposit, the deposit will be entered in a pass-book, Form No. C, which will be supplied to the depositor and

the entry in which will be signed by the Anchal Master and stamped with the Anchal Office stamp.

13. The depositor will be required to sign a receipt for the pass-book in a Book of signatures, Form No. D which will be kept in the Anchal Office. The signatures should be carefully made, as they will be preserved as specimens for the future guidance of the Savings Bank.

When the depositor does not himself attend at the Anchal Office, his signature should be obtained on the printed slip (Form No. 1) duly attested by a trustworthy witness known to the Anchal Master in cases in which such attestation is deemed, by the Anchal Master, necessary.

Pass-Book.

14. The pass-book of a depositor will show, in the vernacular of the place or in English, as the depositor may wish, the number of his account, the name of the Anchal Office from which the pass-book is issued, his own name, occupation or profession and address. No deposit can be made and no money can be withdrawn from an account without its production. The Anchal Office will not be responsible for any sum not acknowledged in the pass-book, nor for any loss caused to a depositor, if any person obtain possession of the book and obtain payment of any sum belonging to the depositor.

15. No charge will be made for the pass-book, first supplied to a depositor, or for any book issued to him in continuation of the original book, which latter will thereupon be retained by the Anchal Office. But if a pass-book be lost or spoiled, (except under circumstances over which the depositor has no control) or if any account be re- opened, with the permission of the Account Officer, (under rule, 34) before the expiry of three months from the date of closure the depositor will have to pay half a rupee for a fresh book.

16. A depositor may deposit money at the Anchal Office at which his account stands, as often as he wishes, so long as the prescribed limit is not exceeded. All that he is required to do is to take or send the amount of a deposit with the pass-book and see that the amount is entered in the pass-book and the balance struck and signed by the Anchal Master and stamped with the date.

Mode of Withdrawing Money.

17. When a depositor wishes to withdraw money, he must present his pass-book at the Anchal Office at which his account stands, with the application for withdrawal, Form No. E, (which can be had at the Anchal Office), signed by himself and showing the balance to his credit and the amount which he wishes to withdraw. If the pass-book and the application for withdrawal are presented by an agent, the name and signature of the agent

should be entered in the application for withdrawal before it leaves the depositor's custody, and in any case, the entries must be màde before the application is presented at the Anchal Office.

18. If the depositor is unable to write, he must attend personlly and affix his mark or seal to the application. Should he be absolutely unable to attend personally, he must have his mark or seal affixed to his application and attested by some respectable witness, and the Anchal Master will then make payment to the person presenting this application with the pass-book, after satisfying himself, by such enquiry as he may think proper, of the inability of the depositor to attend and of the genuine character of the application. The mark or seal of a depositor or messenger who cannot write must, at the time that he receives payment of withdrawal, be attested by the signature of a respectable witness (other than the paying officer), who is personally acquainted with the depositor or messenger as the case may be and also known to the Anchal Master or some member of the Anchal Office. If a depositor desires to withdraw the whole of the balance shown to his credit in his pass-book he will be required to close his account.

19. In the case of withdrawals made from accounts opened on behalf of minors, the father, karanavan or other guardian of the minor must sign the following certificate on the application for withdrawal :.

"Certified that the amount sought to be withdrawn is required for the use of the minor".

20. Should any person other than the father or karanavan, or if the father be dead, other than the mother, wish to withdraw money from an account opened on behalf of a minor, and claim to do so as guardian of such minor, he or she will be required to answer the following questions and such other questions as may be considered necessary, and will be allowed to withdraw money only on the order of the Account Officer in accordance with rule 38.

(*a*) What is the relationship to the minor?

(*b*) Is the father, mother or karanavan of the minor dead or are both parents and the karanavan dead ? What near relative of the minor is alive?

(*c*) Have you been appointed guardian of the minor by will or deed or under any Regulation in force in Travancore ?

Note—If the reply to this question is in the affirmative, the applicant must produce the document on which he or she relies to support his or her claim.

(*d*) Does the minor reside with you or is the minor maintained by you ?

21. (i) The amount to be withdrawn will be entered in the pass-book and a fresh balance struck as in the case of a deposit

under the signature of the Anchal Master and with the date stamp of the Anchal Office. The amount will then be paid to the depositor or to the person presenting the pass-book and application, and his receipt taken in all cases without a receipt stamp, under the payment order.

(ii) The payment of a withdrawal at an Anchal Office is subject to the condition that funds are available in the Office. If funds are not available they will be obtained as soon as possible. In such a case the depositor will be informed of the date on which he should come to the Anchal office to receive payment, and he will retain the pass-book. The amount will be paid on presentation of the pass-book on the date mentioned or any subsequent date within one week from that date.

Interest.

22. Interest will be allowed, until further notice, at the rate of ¼ chuckram per 3 rupees per mensem, or a little above 3½ per cent per annum, but shall not be allowed on any excess over a multiple of Rs. 3 or over Rs. 10,000. This interest will be allowed for each month on the lowest balance at credit of an account between the close of the fourth day and the end of the month.

Note:—No interest will be allowed for any month on an account, opened after the fourth day of that month.

23. When an order has been issued to close an account, interest will cease to accrue from the first day of the month in which the order is issued.

24. Interest on the account of a deceased depositor will cease to accrue from the first day of the month in which notice is issued to person or persons recognised by the Government as entitled to receive the balance of the account.

Note.—The notice shall be issued by the Account Office, for which purpose the Anchal Master shall intimate the death of any depositor to that office, with the name or names of the legal heirs of the deceased and their addresses.

25. The interest calculated as above on the lowest balance for each month will be added each year to the balance of each account.

26. Depositors should present their pass-books, as soon as possible after the end of the year, in order that the necessary entries may be made in them, and should receive an acknowledgment in Form No. F, if the pass-book is not returned then and there.

27. No balance will be struck in the pass-book after the end of Karkatakam until interest has been added for the past year.

Transfer of Accounts.

28. A depositor may have his account transferred, free of charge, *to any* Anchal Office, that is a Savings Bank, provided that the account shall have been in existence for three months previous to the transfer. If he should wish to transfer his account, he must present his pass-book personally or send it to the Anchal Office and must, in either case, make a written application for transfer in Form No. G. The pass-book will be returned to the depositor, who should present it as soon as possible at the new Anchal Office to which his account has been transferred, with the specimen of his signature.

29. Accounts cannot be transferred from one Anchal Office to another in the month of Karkatakam, nor can accounts ordered to be closed be transferred.

Note.—No account can be transferred after the death of a depositor.

Closing of Accounts.

30. When a depositor wishes to close his account he must present his pass-book, with a form of application for withdrawal. The amount of interest as per rule 22 will be entered in the pass-book and a final balance struck in the Account Office. The amount will then be paid to the depositor and his receipt taken in the pass-book, which will be returned by the Anchal Office to the Account Office.

31. An account may be closed within the week in which a withdrawal has been made.

32. If an order to close an account has been issued under these rules, notice in writing will be sent to the depositor requiring him to present his pass-book. After the date of such notice, no deposit will be accepted in the account and no interest will be allowed on the balance after the end of the calendar month preceding such date.

33. An account opened on behalf of a minor must, if still open, be closed by him on his attaining the age of 18 years. Interest on an account opened on behalf of a minor will cease to accrue from the first day of the month after that in which the minor attains the age of 18 years.

Re-opening an Account.

34. A depositor who has once closed an account cannot open another account until after the expiration of a month from the date of closure without the permission of the Account Officer and a depositor whose account has been closed by order cannot

open a fresh account in any case without the permission of the authority which ordered it to be closed.

Dead Account.

35. Accounts in respect of which no transactions have taken place for the periods specified below will be treated as "Dead", and no subsequent deposit or withdrawal will be allowed in the case of such accounts without the previous orders of the Account Office.

When the balance of the account		and when no transaction takes place for
Does not exceed	... Rs. 10	2 complete years
Exceeds Rs. 10 but does not exceed	... Rs. 100	4 Do.
Exceeds	... Rs. 100	6 Do.

Note. 1. "Transaction" in this rule means not only a deposit or withdrawal but also the presentation of the pass-book for the entry of interest.

2. A dead account does not lapse to the Government but it may be re-opened at any time on the application of the depositor and the interest that has accumulated will be added to the principal when the account is renewed.

Successions and Guardianship.

36. If a depositor shoud die, leaving a balance in a Savings Bank, and if a certificate under Regulation IX of 1090 be not produced within three months of his death, the Account Officer may pay the said balance to any person appearing to be entitled to receive it.

37. If any depositor become insane or otherwise incapable of managing his affairs, and if such insanity or incapacity be proved to the satisfaction of the Account Officer, he may, from time to time, make payment out of the deposits to any proper person. When a committee or manager has been duly appointed to administer the depositors' estate, nothing in this rule authorizes payments to any person other than the committee or manager.

38. When any person other than the father, mother or karanavan claims to withdraw money from an account opened on behalf of a minor, as being the guardian of such minor, the Account Officer may authorise the applicant to withdraw money from the account for the minor's use under the following conditions:—

(*a*) Where the applicant claims to be a guardian under the law, on production of proof of the claim;

(b) Where the applicant claims as guardian appointed by will or deed, on production of the documents in support;

(c) In other cases, the applicant may be required to produce a certificate under Regulation IX of 1090 before payment is made to him.

Public Account.

39. The following rules govern the opening of "Public Accounts" and their transactions:—

(*a*) Accounts may be opened by the Secretaries, Treasurers, or Managers of the Funds of any Dispensary, Devaswom, or other Religious Institution, School, Orphanage, Asylum or Library, or of any other Fund contributed for purposes other than the personal advantage of the contributors. Race, Racquet, Billiard, Mess and similar Funds, the objects of which are of a private or personal nature, cannot be allowed accounts.

(*b*) Secretaries, Treasurers, or Managers of Societies registered under the Travancore Companies Regulation I of 1092, may be allowed accounts.

(*c*) Secretaries and managers of Benevolent Funds (that is, Funds formed by mutual subscription as an insurance against domestic misfortune) may be allowed accounts.

(*d*) Officers of Government or of public institutions, such as Railway and Steamer Companies, and the like, who collect subscriptions, voluntary or departmental, from their subordinates for departmental purposes, may be allowed accounts.

40. Public accounts of the kind specified above must be designated by names indicating the object to which the money is devoted,—as Dispensary Fund, Battalion Kit-money Fund, Reformatory Mark-money Fund etc.

41. Information must also be given in writing regarding the object and source of income of the Fund.

42. Each new public account must be authorised by the Account Officer *before* it is opened.

43. The Account Officer is empowered to direct that a public account be closed, should its object be such that the account could not, under the rules, be opened as such.

44. In every case in which the holder of a public account, other than a public account held by an officer of Government in his official capacity, is changed, a fresh declaration (*vide* rule 11) must be filled up.

45. The limitations laid down in rule 4 are not meant to prevent any person from opening more than one *ex-officio* or public account.

46. Public accounts may stand in the names of two or more persons jointly.

47. The limit of Rs. 10,000 for deposits (Rule 7) as well as for calculation of interest (Rule 22), does not apply to public accounts. But no public accounts may have at any time more than Rs. 20,000 at its credit, exclusive of interest for the current year; and no interest will be credited on any sum in excess of Rs. 20,000.

47. The restrictions laid down in rules 6 & 9 in regard to the amounts of deposits and withdrawals do not apply to Public accounts.

48. In the form of declaration referred to in rule 11, which every depositor must sign, the words "I declare also that there is no account at any other Anchal Savings Bank in my own (or in the minor's) name" should be scored through, in the case of a public account.

49. No account may be allowed for money,

(i) which is the property of the Government, or

(ii) which has been received for credit of the Government, or

(iii) which has been drawn from the Treasury for expenditure on account of the Government, or

(iv) which is raised by taxation, either local or municipal, or

(v) which is collected or received or held in trust by any public officer or court, in accordance with any law, provided that the money is the property of the Government.

NOTE.—Nothing in these rules prevents the opening of an account for a Judicial deposit, in accordance with a special order passed by a Court of Law in a particular case, directing the investment of the money in the Anchal Savings Bank. Such an account, when admitted, is subject, in every respect, to the rules and limitations which govern ordinary private accounts.

Security Deposit Accounts

50. The following special conditions govern the opening of security deposit accounts and their transactions:—

(*a*) Government servants, servants of Town Improvement Committees and contractors who are required to deposit security may be allowed separate accounts for the security deposit only.

(*b*) The restrictions laid down in rule 7, in regard to the maximum limits for each separate account and those laid down in rules 6 and 9 in regard to the amounts of deposits and withdrawals, do not apply to security deposits.

(*c*) A person may open a security deposit account either in his own behalf or on behalf of another person. More than one account, however, may not be opened as security for the same person in respect of the same work or contract.

(*d*) A security deposit may be opened in the joint names of the persons undertaking the same work or contract.

(*e*) A person undertaking more than one work or contract at the same time may be allowed a separate account in respect of each.

(*f*) The depositor will be required to sign a declaration, in Form No. H., undertaking not to make any claim on the Savings Bank for the principal of the sum deposited or any interest thereon except with the express written sanction of the officer to whom the security is pledged, not to object to the payment by the Bank of the whole or part of the principal or interest to such officer on his claiming it and not to make any claim for interest from the date on which interest has ceased to accrue owing to the payment of the principal to such person or from the date on which such person has sanctioned the re-payment of the deposit.

(*g*) The personal attendance of persons, furnishing security deposits, need not be insisted on for signing the Book of Signatures (rule 13). A specimen signature, duly attested by the Head of the Department concerned or by a Magistrate, may be obtained, and filed in the Book of Signatures.

(*h*) The prohibition against the transfer of an account until it has been in existence for three months (rule 28) does not apply to security deposit accounts which may be transferred, on the requisition, accompanied by the pass-books, of the officers to whom the accounts are pledged.

(*i*) In the case of a security account, the personal attendance of the depositor at the Anchal Office of deposit to acknowledge receipt of the amount, when closing the account (rule 30) need not be insisted on. Payment may be made to the depositor by Anchal Hundi *at his cost*, on receipt of the pass-book, duly receipted by him and attested by the Head of the Department or office, to whom the account is pledged.

(*j*) The notice required by rule 24 shall be issued, in the case of security deposits, by the Head of the Department or the officer to whom the deposit is pledged.

(*k*) No interest will accrue on security deposits from the first of the month in which notice of release is served on the

depositor by the officer to whom the account is pledged. A copy of such notice should always be furnished to the Anchal Master concerned.

Miscellaneous.

51. The employees of the Anchal Department, engaged in the receipt of payment of deposits, are not allowed to disclose the name of any depositor, or the amount deposited or withdrawn by him, except to officers of the Department engaged in carrying out the provisions of these rules.

52. The Government reserve the right to alter or add to these rules at any time. All alterations and additions will be previously published in the Gazette.

BUSINESS HOURS OF THE POST OFFICE.

1. Business hours.

(1) At every post office the hours during which postal business is transacted with the public, and the times at which mails are delivered and closed, are conspicuously notified. The public business hours are fixed with regard to local convenience and all work at the post office window or counter is stopped precisely at the latest hour fixed. Elsewhere they are generally as follows on days which are not Post Office holidays (*See Clause 2*) —

For references and inquiries ...	From 7 to 8 A. M., and from noon to 5 P. M.
" registration ... ... " insurance ... ... posting parcels ... ... " posting value-payable articles ... " granting certificate of posting ...	From 7 to 8 A. M., and from noon to 5 P. M., unless otherwise notified. And on Saturday till 3 P. M. but if late fee is paid till 5 P. M.
" issue of money orders ... " savings bank business ... " sale and payment of British postal orders	From noon to 3 P. M., and till 1 P.M. on Saturday unless otherwise notified.
" issue and payment of telegraphic money orders	At any time at which work is going on in the post office between the hours of 6 A. M., and 6 P. M., or such longer hours as may be notified locally.

For references and inquiries „ receiving telegrams for despatch.	At any time when telegraphic money orders may be issued, to during telegraph business hourr (*see* Section VI, *Indian Telegraph Guide*).

(2) At combined post and telegraph offices, the receipt of telegraphic money orders for issue and of telegrams for despatch is subject to the following conditions:—

(i) Telegraphic money orders and telegrams, *whether ordinary or express*, are accepted on the understanding that, if the telegraph office of despatch or the telegraph office of destination is closed at the time the telegraphic money order or telegram is accepted, the telegraphic money order or telegram will not be *transmitted by wire* until both the offices are open.

(ii) An *express* telegram or an *express* telegraphic money order will however be accepted, on payment of late fees for transmission during the hours when the office at which it is handed in, or the office to which it is addressed, or an intermediate office through which it must pass is closed provided the attention of the closed office or offices concerned can be gained. The late fees will be at the rate of one rupee for each closed office which is required to deal with the telegraphic money order. If the same sender presents, or causes to be presented, several telegrams, or telegraphic money orders together for despatch at an office which is closed, a single late fee only is payable in respect of that office and in addition a single late fee is payable for each closed intermediate office or office of destination. If the attention of a close d office cannot be gained the late fee collected for that office will be refunded, but no refund will be made of the late fee for an office which has already dealt with the late fee telegram or telegrams or telegraphic money orders as the case may be.

Exception —At places where there is more than one telegraph office, only one will ordinarily be available for use by the public during "closed hours." The other combined offices at such a place will not, during hours when the telegraph branch is closed, ordinarily accept telegraphic money orders or telegrams for despatch even on payment of extra fees, but will exhibit a notice outside the office directing intending remitters of telegraphic money orders to the nearest post office which is open for the purpose and intending senders of telegrams to the nearest open telegraph office or, if there is no open telegraph office, to the nearest telegraph office which is available for the despatch of telegrams on payment of extra fees.

(3) The conditions mentioned in paragraph(2) above apply also to the receipt of inland telegrams at post offices situated at Government Telegraph stations which are authorised to accept such telegrams for despatch —(*See clause 354.*)

Articles, however, on which postage is due will not be delivered unless the postage be first paid. (*But* see clause 31.)

28. Window Delivery. (1) Except at the three Presidency towns of Calcultta, Bombay and Madras and at Rangoon, any person residing within the ordinary delivery beat of the postmen can have all letters and other postal articles received to his address delivered, to him regularly, during business hours, at the window of a post office, free of any charge on this account, provided that the articles are taken over loose and that the addressee makes a written application to the post office asking that his letters and other articles may be retained in the post office till called for, instead of being sent out in the ordinary course by the postmen.

(2) Any person residing within the ordinary delivery beat of the postmen may also, on application, obtain delivery, during business hours, from the window of a post office, *in a locked bag*, of all *fully prepaid unregistered letters, postcards newspapers, and packets* that may be received to his address, provided that the bag is furnished with a lock and duplicate keys and is supplied at the applicant's

own expense, and provided also that the applicant pays to the post office in advance a fee, calculated as follows for a window delivery ticket which will entitle him to the service at any post office. The fee will be at the rate of one rupee a month for the number of months from the month of issue of the ticket to the following March, both inclusive. Thus, the fee for a ticket issued on any date in April will be Rs. 12, while that for a ticket issued on any date in December will be Rs. 4. The ticket which will also entitle the holder to use his bag for the conveyance to the post office of articles to be posted will be personal to the holder, that is to say, it will not be transferable from one holder to another; and it will remain in force up to the 31st March following the date of issue, but may at the end of that period be renewed up to the 31st March of the next year on payment of a fee of rupees twelve in advance. No refunds will be allowed.

NOTE 1.—The special conditions under which a person may obtain delivery of articles to his address from the window of the post office in the three Presidency towns of Calcutta, Bombay and Madras, and in Rangoon may be ascertained, on application, from the postmasters.

NOTE 2.—Registered and insured articles will be delivered to *messengers* and money orders paid to them only on the conditions laid down in clause 30. Value-payable articles will be delivered only in accordance with the provisions of clause 141.

29. Delivery of articles to messengers sent from places not served daily by postmen.

(1) Any person, residing at a place which is not served *daily* by the postmen, who sends his own messenger regularly to the post office to take delivery of correspondence received to his address or to the address of members of his family can have his letters and other unregistered articles delivered to the messengers, who must pay the postage due on the unpaid articles, unless the addressee deposits money in advance to pay the postage, in which case an account will be kept with him and adjusted at regular intervals.

(2) Registered and insured articles will be delivered and money orders paid to the messenger only on the conditions laid down in clause 30. Value-payable articles will be delivered only in accordance with the provisions of clause 141.

(3) The Post Office will, if desired, provide, at the addressee's expense, a bag furnished with a lock, in which all articles, cash, receipts, acknowledgments, notices and coupons to be conveyed by the messenger will be placed by the post office together with a memo. of the contents. One key of the bag will be kept by the postmaster and the other by the addressee. The same bag may be used for the conveyance by the messenger to the post office of articles to be posted, but no cash for any purpose whatsoever may be conveyed in the bag to the post office. No fee will be charged for the use of this bag.

30. Delivery of registered articles, etc., to messengers.

(1) If the addressee specially authorises the postmaster to do so in writing (in the following form), the postmaster will also deliver to the messenger all registered and insured articles and pay him the value of all money orders (*see* clause 269) which may arrive for the addressee or his family; provided that no value-payable articles will be delivered otherwise than as prescribed in clause 141.

"I authorise the postmaster of—to deliver registered and insured articles and parcels, and pay money orders to my messenger named—, and on the postmaster delivering such articles and paying such money orders to the messenger, and obtaining the latter's receipt, I free the Post Office from all responsibility in respect of such articles and money orders."

(2) If the addressee does not authorise his messenger to sign, on his behalf, the receipts and acknowledgments in the case of registered and insured articles and notices with acknowledgments and coupons, in the case of money orders (*see* clause 270) will be handed under receipt to the messenger for delivery to the addressee. When the receipts and acknowledgments are returned to the post office duly signed, and the notices endorsed with receipts of payment, the articles and the amounts of the money orders will be made over to the messenger.

(3) It is not necessary that the authority granted to the postmaster should apply to all classes of articles: it may be restricted to uninsured registered articles, in which case insured articles will be delivered, and money orders paid only on the return of the receipts, acknowledgments and notices signed by the addressee.

31. Accounts with planters, etc.

In the case of planters and others living at a distance from the post office regiments, officials, and mercantile firms, who are in the habit of receiving unpaid correspondence, the post office will arrange, if desired, for the delivery of articles to their messengers or orderlies or at their offices without requiring a daily settlement of its claim for the postage due on their unpaid articles, provided that a sufficient sum to pay

the postage is deposited in advance by the addressees. In such cases the post office will keep an account with each addressee adjusting the account at regular intervals, and giving the addressee due notice when the amount deposited by him in advance to cover postage is nearly expended.

TREATMENT OF UNDELIVERABLE ARTICLES.

The following rules govern the treatment of undeliverable articles in post offices :—

32. Period of detention of undeliverable articles in post offices.

(*a*) Articles, the addresses of which are so illegible or incomplete as to render delivery impossible, are sent at once to the Dead Letter Office for disposal.

(*b*) Articles, the addressees of which are not known or have left the station of address without intimating their fresh address to the post office, are ordinarily kept in deposit in the head, sub, or branch post office to which they are addressed, for a period of seven days after all enquiries to find the addressee have proved unsuccessful. Insured articles are then returned to the offices of posting for delivery to the senders, while other articles are forwarded to the Dead Letter Office for disposal. If an article has been re-directed to the post office at which it is found to be undeliverable, it is not kept in deposit, after it has been ascertained that the addressee cannot be found.

(*c*) Undelivered telegrams, which are in course of transmission by post, are kept in the post office to which they are addressed for a period of three days from the date on which they reach that office, and are then returned to the telegraph office by which they were posted.

(*d*) An undelivered postal article, of which the addressee—

(i) has refused or omitted to take delivery after due notice has been given to him by the post office,

(ii) is known to have gone away from India without leaving instruction at the post office as to the re-direction of his correspondence or,

(iii) is dead, and there is no person to whom the article could properly be delivered,

(iv) is not detained in the post office to which it is addressed, but is sent at once to the Dead Letter Office, with the following exceptions :—

(1) Refused unregistered articles which bear *clearly* on the outside the name and address of the sender are returned at once by *head offices* direct to the offices of posting for delivery to the senders.

(2) Unclaimed and refused insured articles and refused uninsured registered articles (including V. P. articles) are returned at once direct to the offices of posting for delivery to the senders.

If the senders of articles so returned to the office of posting cannot be found, the articles are then sent to the Dead Letter Office.

33. Disposal of articles rent to the Dead Letter Office.

(1) In the Dead Letter Office, further endeavours are made to find the addressees of articles other than refused articles or articles addressed to deceased persons. If the addressees cannot be found, those articles which bear the name of the sender on the cover are returned to the office of posting for delivery to the sender. Those which do not bear the name of the sender on the cover are opened, for the purpose of ascertaining the name and address of the sender; if the necessary information is found, the articles are returned to the sender; if it cannot be found, they are disposed of in the Dead Letter Office after being detained for a certain fixed period.

(2) Refused articles and articles addressed to deceased persons are treated in the Dead Letter Office, in the same manner as articles the addressees of which cannot be found.

34. Sender to pay postage, etc.

The sender is bound to pay any postage or other sum due on an undelivered or refused article returned to him by the Post Office. In the case of refusal to pay the amount due, the Post Office has the remedy described in clause 24.

POSTE RESTANTE.

35. Poste Restante articles.

All articles superscribed "To be kept till called for" "To await arrival," or in any similar way, and also articles addressed "Post Office" are held to fall under the head "Poste Restante."

36. Treatment.

An article of the Poste Restante is kept in the post office to which it is addressed—

(i) for a period of four months from the date on which it reaches that post office in the case of the undermentioned towns and some other sea-ports—

Bombay,	Chittagong,	Madras,
Calcutta,	Karachi,	Rangoon;

(ii) for a period of one month in all other cases.

Exception.—As soon as it is ascertained that the payee of a telegraphic money order addressed "Post Office" cannot be found, a reference is made to the office of issue, and the telegraphic money order if still undeliverable, is then re-issued without delay by telegraph, free of any further charge, for payment to the remitter.

37. Responsibility of Post Office.

In cases in which articles are superscribed "To await arrival," or "To be kept till called for," and the address gives no further indications of the intention of the sender, the responsibility of the Post Office is limited to retaining such articles in deposit for the prescribed period.

NOTES FOR PUBLIC INFORMATION.

38. Restrictions and limitations.

Whenever restrictions or limitations exist as regards any particular class of work in any post office, such restrictions or limitations are mentioned in foot-notes in the list of post offices at the end of this book.

39. Legal responsibility of Post Office.

The Indian Post Office is exempted by law from all responsibility in the case of (1) loss, misdelivery or delay of, or damage to any postal article in course of transmission by post and (2) wrong-payment or delay in payment by foreign postal administration of money orders issued in India. In the case money order paid in India and of issued letters and parcels the extent of the liability or the India Post Office will be found in the rules regarding these classes of business.

40. Posting of coin, etc.

Coin, bullion, precious stones, jewellery, and articles of gold or silver may only be sent, by the Inland post, insured. They may not be sent at all by the Foreign letter post, but may be sent by the Foreign parcel post. Currency notes or any portion thereof may only be sent insured. By sending articles of value in unregistered letters or unregistered parcels, the senders not only run the risk of losing their property but also expose to temptation every person through whose hands the articles pass.

Explanation.—In this rule, the expression "articles of gold or silver" includes articles made wholly or partly of gold or silver, but not electro or other plated goods. The expression "Currency Notes" does not include defaced notes (*i. e.* notes from which the signature has been cut off after cancellation), remitted on behalf of the Currency Department.

41. Packing.

(1) Every letter, packet, or parcel has to be stamped with the date-stamps of at least two post offices, and is liable to a great deal of pressure and friction in the mail bags and during transit. All articles, therefore, which are likely to suffer from stamping or pressure should be packed in strong covers. The Post Office cannot take any special precautions to secure the safety of fragile articles. When wax-cloth is used for the protection of a parcel, packet, or letter, it should be used as an *inside* cover, or there should at least be sufficient strong paper securely fastened outside the wax-cloth to receive the impression of the Post Office date-stamps, and any postage stamps which have to be affixed to the article.

(2) Special rules regarding the packing of particular classes of articles are given in the clauses of the *Guide* relating to insured articles and book and pattern packets, under the Inland post, and in the clauses relating to printed papers, samples, and insured parcels, under the Foreign post. These rules are absolute rules, for the breach of which a penalty is prescribed in each case.

NOTE.—Paper used as wrappers for packets of printed matter intended for the Foreign post should be specially strong and tough. As an additional precaution against the tearing of paper wrappers, it is recommended that thick magazines or pamphlets which are folded for the post be tied with string or tape before the wrapper is applied.

42.
Sealing.

The public are advised not to use sealing-wax for seals outside unregistered letters and packets, except when such seals are necessary for the protection of the articles to which they are applied. When sealing-wax is used for seals outside letters and packets, a piece of tissue or other thin paper should be laid on the wax before the seal is applied, as otherwise both the articles themselves and those with which they come in contact in transit are liable to injury from the sealing-wax adhering to other articles. The precaution recommended is specially necessary in the case of articles for the United Kingdom and foreign countries, which have for several days to pass through very hot climates.

43.
Addition of sender's address.

Every article should bear on the lower left-hand corner the name and address of the sender, in order that the Post Office may be able, in case of non-delivery, to return it unopened and without delay. This is specially desirable in the case of registered articles (whether letters or parcels) and unregistered parcels. A large number of undelivered articles are destroyed every year at the various Dead Letter Offices, because they contain no clue, outside or inside, to the whereabouts of the senders, and it is suggested that in the case of photographs sent by packet post, the name and address of the sender should always be written on the back of the photograph.

44.
Intimation of address to correspondents abroad.

The public are advised, when furnishing their address to their correspondents abroad, to mention the name of the Province in India in which they reside.

45.
Advantage of prepayment of postage.

(1) It is the accepted policy of the Indian Post Office to forward by the earliest mails, and to deliver, as expeditiously as possible, all letters on which the postage has been fully prepaid. Articles on which the postage has not been prepaid, or has not been fully prepaid, represent money that has to be realised by the Post Office, and are therefore forwarded and delivered under special arrangements, which necessarily involve delay.

(2) With respect to prepayment of correspondence addressed to foreign countries the attention of the public is invited to the importance of prepaying postage in full especially on newspapers and packets, as insufficient prepayment besides involving delay, renders these articles liable to refusal by the addressees.

46.
Complaints against Post Office.

(1) Letters containing complaints against the Post Office may be transmitted by the Inland post free of postage, provided that they are addressed to a postmaster or other officer of the Post Office, and provided that it is certified on the cover, with the full signature of the complainant, that they are complaints against the Post Office.

NOTE.—A person wishing to register a letter containing a complaint against the Post Office must comply with the ordinary registration rules, which require that the postage as well as the registration fee, should be prepaid. Also, if a certificate of posting is required in respect of a letter containing a complaint against the Post Office, the prescribed fee for such a certificate must be prepaid

(2) Complaints should, in the first instance, be addressed to the postmaster of the office concerned unless the matter complained of is of sufficient importance to call for an independent investigation. If the complainant is not satisfied with the action taken by the postmaster or, for other reasons, desires an independent investigation, he should address the Superintendent *of post offices or the Postmaster-General concerned (*see* Section 14 of the *Post and Telegraph Guide*). Complaints on matters of special importance should always be addressed direct to the Postmaster-General.

* The address of the the Superintendent of post offices can always be ascertained from the nearest post office. A complaint if addressed in the following manner will be duly delivered.

Complaint against the Post Office.
The Superintendent of Post Offices.
LOCAL.
Signature of complainant.

NOTE.—*See* Clause 144 regarding complaints concerning value-payable articles.

(3) Complaints made by the senders of registered, insured, or value-payable articles or by the remitters of money orders should be accompanied by copies of the receipts granted by the Post Office, and complaints from the senders of unregistered articles of the loss of the articles should furnish such information as may be available to establish the actual posting of the articles such as (i) the date and hour of posting, (ii) the locality of the letter-box in which posted, (iii) the full address on the article, and (iv) the person by whom posted. In a large proportion of complaints it is found that articles entrusted to messengers or servants are never posted, or are not posted at the time believed or that the posting is uncertain.

(4) In all cases of loss of the contents of an article, the cover or wrapper should accompany the complaint and a full description of the missing contents should be given: if the missing contents are currency notes, the serial letters and numbers and general numbers of the notes should be given.

(5) Complaints of delay in the delivery of articles should be accompanied by the original covers or wrappers. In a complaint regarding the Savings Bank, the number of the *account* should always be given.

(6) Complaints of overcharge on articles, the delivery of which has been accepted, should be addressed to the postmaster of the office of delivery to whom the article should be taken or sent before it is opened.

(7) Complaints regarding the wrong payment or non-payment of a money order cannot be attended to unless preferred within twelve months of the date of issue of the money order. Other complaints cannot be attended to unless preferred within six months of the date of the occurrence to which they relate; or, if they include claims for compensation for loss or damage to postal articles, within the time mentioned in CLAUSES 116 (1). (*b*), 130 (*d*) 213 and 221 (*d*). No claims for refund of telegraphic charges on telegraphic money orders will be entertained if made after two months from the date on which the telegraphic money order was issued.

47\.
Complaints on telegraph matters.

(1) Letters containing complaints on telegraph matters may be transmitted by Inland Post, free of charge, provided that they are addressed to the *Director-General of Posts and Telegraphs, Traffic Branch, Calcutta*, or to a telegraph master, or other Telegraph officer, and provided that it is certified on the cover, with the full signature of the complainant that they are complaints on telegraph matters. Letters relating to *refunds* of telegram charges, but which do not involve complaints against the telegraph service must be paid for in postage stamps.

(2) Complaints relating to telegrams received or despatched should be addressed to the *Director-General of Posts and Telegraphs, Traffic Branch, Calcutta*, accompanied by the receipt granted by the office of orgin for the telegram under complaint if despatched from India or Burma. Complaints against any Telegraph official or on telegraph matters in general should, in the first instance, be addressed to the officer in charge of the telegraph office concerned, unless the matter complained of is of sufficient importance to call for an independent investigation. If the complainant is not satisfied with the action taken by that officer, or for other reasons desires an independent investigation, he should address the Postmaster-General, Complaints on matters of special importance should be addressed to the Director General of Posts and Telegraphs at Calcutta, the address of the Post-master-General, can always be ascertained from the nearest telegraph office.

(3) Complaints made to the *Director-General of Posts and Telegraphs, Traffic Branch, Calcutta*, regarding telegrams should be accompained by documentary evidences, namely :—

(a) in case of non-delivery or of delay, by a written statement from the office of destination, or from the addressee ;

(b) in case of alteration or omission, by the copy of the telegram delivered to the addressee.

(4) Claims for refund of telegram charges, but which involve no complaint against the telegraph service should be addressed to the *Deputy Accountant-General, Telegraph Check Office, Calcutta*, and should in addition to the receipt for the telegram be accompanied by documentary evidence namely:—

(a) in case of an unused reply telegram form by the reply telegram form, delivered to the addressee ;

(b) in case of Paid Service Advice, by the receipt for the repetition message and the correction memorandum granted in connection therewith by the telegraph office of delivery ; and

(c) in case of telegrams stamped in excess by the sender, or stamped and cancelled before transmission has begun, by the receipt granted for the telegram.

If a claim for refund involves a complaint against the telegraph service it should be addressed to the *Director General of Posts and Telegraphs, Traffic Branch, Calcutta.*

(5) Complaints and claims for refund regarding Inland telegrams cannot be attended to unless preferred within two months of the date of the telegram, and regarding Foreign telegrams within five months of the date of the telegram.

* By "union rates of postage" are meant the rates given in Section III which are applicable to countries other than (*a*) those mentioned in CLAUSE 159 (1) and (b) Ceylon and portuguese India.

NOTE.—*Parcels* addressed *to* the Indian post offices at Bandarabas, Bushire Jask, Linga, and Mohammerah may, at the option of the sender, be posted at the Indian *inland* rates or at the *foreign* rates given in the Foreign Post Directory under the head Persia.

49. Definition of "Postal articles."

The term "Postal Articles" is used to describe, for the purposes of the Inland post, the following six classes, for each of which a distinctive rate of postage is prescribed:—

Letters	"Blind Literature" Packets.
Postcards.	Registered newspapers.
Book and pattern packets.	Parcels.

LETTERS.

50. Postage.

The rates of postage on letters are as follows:—

For a letter not exceeding half a tola in weight	Half an anna.
For a letter exceeding half a tola but not exceeding one tola in weight	Nine pies.

Note.—See exception 2 below CLAUSE 352 (*a*)

POST CARDS.

52. Description.

(1) Single and reply postcards for transmission by the Inland post are issued by the Post Office for the use of the public. A single postcard has a stamp of the value of a ¼ anna impressed on it; a double, or reply, postcard has a stamp of the value of a ¼ anna impressed on each portion. The first portion of a double postcard is intended to contain the sender's communication; the second, or reply, portion is intended to contain the addressee's answer, and, when detached and posted by the latter, will be entitled to free transmission to destination

(2) Single and reply cards of private manufacture may be transmitted by post as postcards: provided that the postage is prepaid in full by means of adhesive postage stamps affixed to them ; that, as regards size, they are not more than 5½ by 3½ inches or less than 4¼ by 3 inches ; and that, as regards substance, they are neither thinner nor more flexible than the inland postcards issued by the Post Office.

NOTE:—See exception 1 below clause 352 (*a*).

53. Special rules.

(1) All *reply* postcards of private manufacture must display the title, "Postcard" on the address-side, but this title is not obligatory for *single* cards of private manufacture. Reply halves of reply-paid cards must bear the words "Postcard" and "Reply". Whatever is printed on the address-side of the inland or international official postcards issued by the Post Office is also permissible on the address-side of cards of private manufacture.

A postcard must not be folded, cut, or otherwise altered, except that the impressed postage stamp (if any) may be perforated with initials ; nor may a postcard be enclosed in a cover of any kind.

The right-hand half of the address-side of a postcard is in all cases reserved for the address of the recipient, for the postage stamp necessary for prepayment which should, so far as possible, be affixed in the upper right-hand corner, and for the postal directions "Registered" and "Acknowledgment due," but the left-hand half of the address-side, as well as the back, may be used by the sender for the purpose of a written communication or may be otherwise disposed of, subject to the restrictions mentioned in sub-clause (2) of this clause.

NOTE 1.—Although the vertical line drawn on the address-side of the inland postcards issued by the Post Office, bearing the portrait of His Majesty King George V on the impressed stamp does not divide that side into two *equal* parts, the divisions so made should be taken to represent the "right-hand half of the address-side" and the "left-hand half of the address-side" for the purpose of this rule.

NOTE 2.—A small space marked off by fine lines or minute dots to indicate the place where the postage stamp should be affixed is allowed on the upper right-hand corner of the address-side of postcards.

(2) Nothing may be attached to a postcard except—

(*a*) stamps in payment of postage or stamp duty ;

(*b*) a gummed label (not to exceed 2 inches in length and ¼ inch in width), bearing the name and address of the person to whom the card is sent ;

(*c*) a similar label, bearing the name and address of the sender of the card ; and

(*d*) engravings, illustrations, drawings, and photographs on very thin paper and completely adherent to the card.

Stamps in payment of stamp duty may be affixed only to the back of the postcard. The articles specified in paragraphs (*c*) and (*d*) may be affixed either to the back or the left-hand half of the address-side.

(3) The reply halves of reply-paid cards cannot be registered by the original senders of such cards.

(4) The sender of a reply postcard is recommended to indicate his name and address on the address side of the reply-half. The reply postcard should be folded so that the portion bearing the addressee's name shall be outside.

54.
Penalty for breach of conditions.

Should a postcard be posted without the postage having been prepaid in full, it will be forwarded to the Dead Letter Office to be destroyed forthwith. Should either portion of a reply postcard be posted without the postage having been prepaid, that portion will be forwarded to the Dead Letter Office to be destroyed forthwith. Should any of the other conditions laid down in the foregoing clauses be infringed the postcard will be treated as a letter and the amount of postage prepaid on a single postcard or on the first half only of a reply postcard will be taken into account in assessing the postage to be charged on delivery. If an inland postcard be addressed to a country served by the foreign post, it will be disposed of under clause 162.

NOTE.—See exception 1 below clause 352 (*a*)

BOOK PACKETS.

55.

The rate of postage on book packets is half an anna for every 5 tolas or part of that weight.

58.
Communication of nature of letter not allowed.

No communication of the nature of a letter, or having the character of a personal communication, may be enclosed with, or written upon, the contents of a book packet provided that nothing in this clause shall be held to prohibit inscriptions or entries stating who the sender is or to whom the articles are to be given, or to prohibit purely complimentary greetings from being entered, in writing or otherwise, on Christmas, New Year and Birthday cards and similar articles.

59.
"Paper-money" not allowed.

A book packet may not contain "paper-money," which for the purposes of this clause includes unobliterated postage or other stamps, currency notes, hundies, cheques, bank-notes bankpost bills, bills-of-exchange, and all orders or authorities for the payment of money.

Explanation.—This clause does not apply to a book packet containing a stamped and addressed envelope, postcard, or wrapper, forwarded by the sender of the packet in order that such envelope, card, or wrapper may be returned through the post to the sender or send to some other person designated by him.

60.

The dimensions of a book packet, which may be of any shape, must not exceed two feet in length by one foot in width and one foot in depth. When, however, the packet is in the form of a roll, the length must not exceed thirty inches: provided that, if the length exceeds twenty-four inches (two feet), the diameter must not exceed four inches.

61.

(1) that it is published in numbers at intervals of not more than thirty-one days ; and

(2) that it has a *bona fide* list of subscribers.

An extra or supplement to a newspaper, bearing the same date as the newspaper and transmitted therewith, shall be deemed to be part of the newspaper; provided that no such extra or supplement shall be so deemed unless it consists wholly or in great part of matter like that of the newspaper and has the title and date of publication of the newspaper printed at the top of each page.

75. Postage.

The following rates of postage will be charged on registered newspapers when posted for transmission by the Inland post or to Ceylon in accordance with the conditions set forth below :—

For a newspaper not exceeding eight tolas in weight . . . . . one-quarter of an anna.

For a newspaper exceeding eight toals but not exceeding tweny tolas in weight . half an anna.

For every additional twenty tolas or part of that weight . . . . . . half an anna.

CONDITIONS.

(*a*) The newspaper shall be registered in the office of the Postmaster-General, or officer exercising the powers of the Postmaster-General, of the postal circle in which it is published. Such registration shall cease to have effect at the close of the calendar year following that in which it was effected and must be renewed if a continuance of the privilege conferred by the system beyond that time is desired. The first application for the registration of a newspaper shall be accompanied by a certificate from the District Magistrate of the District in which the newspaper is published, or from the Chief Presidency Magistrate in the case of a Presidency town, to the effect that the security required by Section 8 of the Indian Press Act, 1910 (I of 1910), has been deposited or dispensed with, as the case may be, or in the case of a newspaper published in a State in India, by a recommendation in writing from the Political Officer concerned in support of the application.

(*b*) The postage shall be prepaid by postage stamps.

(*c*) The newspaper shall bear in print immediately above the address the word "Registered" followed by the registration-number, which shall be assigned to it by the Postmaster-General or other officer referred to in condition (*a*).

(*d*) The newspaper shall be posted at the place of publication by the Proprietor, manager, or publisher.

(e) The newspaper shall be posted without a cover or in a short cover open at the ends.

(f) There shall be no word printed on the newspaper after its publication or upon the cover (if any) thereof, nor shall any writing or mark be made upon it or upon the cover (if any) thereof, except the name and address of the person to whom it is sent, and, if desired, the name and address of the newspaper, or of the sender

(g) There shall be no paper or thing enclosed in or with any such newspaper other than an extra or supplement as specified in the definition given in *clause 74*.

Explanation 1. The postage on a packet containing two or more copies of the same registered newspaper may, at the option of the proprietor, manager, or publisher, be paid either (a) at the special rates mentioned in this clause, the amount being calculated on each copy of the newspaper separately according to its weight, or (b) at the rates applicable to book-packets, provided that the conditions relating to book packets are not infringed in any respect.

Explanation 2.—To ensure that condition (d) shall be complied with, registered newspapers must be handed in at the window or door of the post office selected for the purpose by the proprietor, manager, or publisher. Only one post office may be selected for the purpose in the case of each registered news aper and copies of the paper will not be accepted at any other post office for t ansmission as registered newspapers, except with the special permission of the Postmaster-General. Newspapers posted in letter-boxes are not admissible to the reduced rates of postage for registered newspapers.

76.
Procedure.

* These forms may also be obtained at any head post office.

The proprietor, manager, or publisher of a newspaper wishing to adopt the system of registration for such newspaper should address the Postmaster-General of the postal circle in which the newspaper is published. He will then be furnished with a printed form of application* showing the information required by the post office, which he should fill in and return, forwarding at the same time a copy of the newspaper.

The Postmaster General, on receiving the application with the copy of the newspaper, will satisfy himself that the newspaper is entitled to be registered in accordance with these rules, and for this purpose will make such enquiry as he may think proper. When the application is accepted, he will assign to the newspaper a registration-number with the initial letter of the postal circle prefixed, and communicate this number to the proprietor, manager, or publisher. The fact that the newspaper has been registered, and the registration-number assigned to it, will be communicated at the same time to the post office at the place where the newspaper is to be posted.

77
Renewal.

‡ If a newspaper be registered in December 1898, the registration will cease to have effect on the 31st December 1899.

(1) Written notice of intention to renew the registration of the newspaper should be given to the Postmaster-General three weeks before the expiry of the calendar year following that in which the existing registration was effected.‡ With this notice should be sent a fresh form of application bearing the same date as the notice.

(2) The Postmaster-General will deal with the application for renewal in the same way as the original application, and he may, if he thinks proper, require a fresh copy of the newspaper to be forwarded to him. It will not however, be necessary to assign a fresh registration number to the newspaper.

NOTE.—In addition to the postage, a fee of two annas for registration is charged in the case of registered parcels (*see* clause 109). Parcels weighing over 440 tolas must be registered (*see* clause 117).

79. Contents

Anything may be sent in a parcel excepting articles the transmission of which is prohibited (*see* clauses 96, 97, 98). A parcel may contain one (but must not contain more than one) written communication of the nature of a letter, or having the character of a personal communication: provided that the communication is addressed only to the addressee of the parcel itself.

80. Weight and size.

A parcel must not exceed 440 tolas in weight, unless it is registered, in which case the weight must not exceed 10 seers (800 tolas). A parcel must not be of a kind which, owing to size, shape, manner of packing, or any other cause, cannot be carried by post without serious inconvenience or risk.

81. Packing.

(1) A parcel must be packed and enclosed in a reasonably strong case, wrapper or cover, fastened in a manner calculated to preserve the contents from loss or damage in the post, to prevent any tampering therewith, and to protect other postal articles from being damaged in any way thereby.

(2) Liquids and substances which liquefy easily must be despatched in a double receptacle. Between the first receptacle (bottle, flask, pot, box, etc.) and the second (which must be a box of metal or of strong wood) some space must be left to be filled with saw-dust, bran or some other absorbing material.

(3) Live bees must be enclosed in suitable cases and so packed as to prevent all risk of injury to other postal articles in course of transmission by post or to officers of the Post Office.

82. Human and other viscera.

Human and other viscera may be transmitted by the Inland post to Chemical Examiners for analysis, subject to the following conditions:—

(*a*) The suspected *viscus* or other material to be sent for examination must be enclosed in a glass bottle or jar, fitted with a stopper or sound cork.

(*b*) Great care must be taken that the stopper or cork of the bottle fits tightly. This precaution is especially necessary when alcohol is used as a preservative; in such cases a ring of bees' wax or candle wax must be placed round the lip of the bottle so as to cover the shoulder of the stopper. The stopper must be carefully fastened down with bladder or leather and sealed.

(*c*) The glass bottle or jar must then be placed in a strong wodden or tin box, which must be large enough to allow of a layer of raw cotton at least three-fourths of an inch thick, being placed between the bottle or jar and the box.

(*d*) The box itself must be encased in cloth, which must be securely closed and sealed. The seals must be at intervals not exceeding three inches along each seam. All the seals must be of the same kind

of wax and must bear distinct impressions of the same device. The device must not be that of a current coin or merely a series of straight, curved or crossed lines.

83. Plague cultures. Cultures or other articles known or believed to contain the living germs of plague may be transmitted by the Inland post, subject to the following conditions:—

(a) Such cultures or other articles aforesaid must not be accepted for transmission, unless, they are sent by a Commissioned Medical Officer, a Military Assistant Surgeon, or a Medical Practitioner in possession of a qualification not lower than that of L. M. S. of the University of Calcutta, the Punjab, Madras or Bombay or by a person specially permitted by the Governor-General in Council or a Local Government to send such cultures or other articles; nor unless they are consigned to a Government Laboratory or to a person specially permitted by the Governor-General in Council, or a local Government, to receive such cultures or other articles.

(b) The cultures or other articles aforesaid must be securely packed in a hermetically closed tin of adequate strength, which must be placed in a strong outer box of wood or tin with a layer of at least three-quarters of an inch of raw cotton-wool between the inner and outer case.

(c) The outer case must be enclosed in stout cloth, which must be securely fastened and sealed, and labelled with such distinguishing inscription as will suffice to make immediately manifest the nature of the contents.

(d) The sender must present the parcel at the post office accompanied by a declaration as to the nature of its contents, and a certificate signed by himself to the effect that he has advised the addressee of its despatch and that such addressee, if the parcel should not be addressed to a Government Laboratory, has been specially permitted by the Governor-General in Council, or a Local Government, to receive such cultures or other articles. The certificate moreover, must show on its face that the sender is a person authorised within the meaning of condition (a) to send such cultures or other articles.

84 Strong smelling articles. Strong smelling articles (*e. g.* assafoetida) must be enclosed in a hermetically sealed case of tin or other metal.

85 Celluloid. Celluloid and articles made wholly or partly of celluloid, such as cinematograph and photographic films, must be placed in a strong wooden box and a label bearing the word "Celluloid" in bold Letters should be affixed to the parcel.

86. Manner of prepaying postage. The postage on a parcel, and also the registration fee if the parcel is to be registered must be prepared fully by means of postage stamps which must be affixed either to the cover of the parcel or to an official label, which can be obtained free at the post office. In either case, the sender or his messenger must affix the stamps himself, postal officials being strictly forbidden to affix them. Should an official label be used, it must be pasted to the parcel; and if the sender does not do this himself, he is recommended to see it done in his presence before he leaves the post office.

Note:—If wax-cloth is used as an outer covering for a parcel and sufficient paper has not been securely fastened outside the wax-cloth (*see clause 41*), it is advisable that the postage stamps should always be affixed to an official label.

87.
Manner of posting.

(1) Every parcel (including service parcels) intended for transmission by post must be presented at the window of the post office. Any parcel found in a letter-box will be treated and charged as a registered parcel.

(2) If a parcel containing any of the articles mentioned in sub-clauses (2) and (3) of *clause* 81 and in clauses 82, 83, 84 and 85 is not packed in the manner prescribed therein, it will not be forwarded.

88.
Special conditions in certain cases.

(1) Parcels to or from Aden must be *accompanied* by Customs declarations under clause 228. The declared value in such declarations should, however, be stated in Indian currency.

(2) Parcels to and from Abadan*Ahwaz, *Bandar Abas, Bushire Chahbar, Henjam, Jask, Linga, and Mohammerah* in Persia, and to and from Muscat and Gwadur and from the Indian offices at Bahrein and Pasni* must be accompanied by Customs declarations under clause 228. No registered parcel will be delivered to the addressee, unless and until he has signed a receipt for the parcel in the prescribed form, which will be presented to him for signature by the postman who delivers the parcel.

90.
Liability to detention.

In cases where the transmission of letters would be delayed were the whole mail indiscriminately dealt with, parcels may be kept back till the next despatch.

92.

(1) When the post-town to which an article is to be sent is one of several post towns bearing the same name, or when it is a small post town not likely to be known, the name of the district must be added to the name of the post town. The name of the district in such cases must be added *in brackets* to prevent it from being mistaken for the post-town in cases in which there are districts and post-towns of the same name, *e. g*

To A. B., Ramnagar, (*Benares*).	To A. B., Akola. (*Ahmednagar*).

(2) When one of several post-towns bearing the same name happens also to have the same name as the district, the name of the province should be added to the post-town, *e. g.*—

REGISTRATION.

107. Object. — Registration makes the transmission of an article more secure, as it passes through the hands of special postal officers, under special precautions. But the Post Office is not responsible for the loss of a registered article, or for any injury which its contents may sustain during its transmission through the post. The risk of injury is diminished by the use of registration envelopes (sold at all post offices.)

108. Articles which can be registered. — Letters, postcards, book and pattern packets, and pracels may be registered at any post office for transmission by post to any other post office.

109. Fee. — In addition to the postage a fee of two annas will be charged for the registration of any postal article.

111. Manner of registering. — An article intended for registration must be presented at the window of the post office. No such article will be accepted for registration if it is so small or so covered with writing or sealing-wax on the address-side, or otherwise made up in such a manner, as to render it impracticable to affix to the article the prescribed official label of the Post Office.

NOTE.—The sender of a postal article is recommended to write his name and address on the cover in the lower left-hand corner, so that the postal article, in case of non-delivery, may be returned to him *unopened and without delay*.

112. Sender's receipt. — A receipt will be given to the person who presents an article for registration at the post office window during the hours prescribed for posting registered articles.

The fee for a special acknowledgment must be paid by means of postage stamps affixed to the article.

Exception.—The fee for a special acknowledgment is two annas in the case of a registered letter, post card or packet addressed to or from Abadan, Ahwaz, Bandar Abas, Bushire, Chahbar, Henjam, Jask, Linga, or Mohammerah.

Compensation. — (1) The Postmaster General may grant to the sender, or, at his request, to the addressee, solely as an act of grace, and not in consequence of any legal liability, compensation up to a limit of Rs. 25 for the loss of any Inland letter, packet or parcel, or its contents or for any damage caused to it in course of transmission by post, subject to the following conditions:—

(a) That the prescribed registration fee shall have been prepaid in addition to the postage.

(b) That the application for compensation shall have been made within three months of the date of posting of the article in the case of loss of the article, and within one month of the date of delivery* of the article in the case of loss of contents or damage.

(c) That the amount of compensation shall not exceed the actual amount of the loss or damage, and that such amount can be referred directly to some loss or damage.

(d) That the decision of the Director-General on all questions of compensation shall be final.

(2) No compensation will be given in the following cases :—

(a) *For loss or damage*,—in cases in which this has been caused by the fault or negligence of the sender, or in which the contents of the registered article were articles which are not allowed to be sent by the Inland post.

(b) *For damage*,—in cases in which the contents of the registered article are liquids or perishable articles, or articles of an exceptionally fragile nature.

NOTE 1.—See also clause 349.

NOTE 2.—No compensation will be given in cases in which the registered article containing anything the insurance of which is obligatory or which is not allowed to be sent in a letter, packet or parcel as the case may be.

117. Cases in which registration is compulsory. Registration is obligatory in the case of—

(e) an article bearing the word "registered" or any other word, phrase or mark to the like effect, written or impressed on the cover.

(f) any registered article which is re-posted after having been delivered.

INSURANCE.

118. Articles which can be insured.

Registered letters, value-payable registered letters, registered parcels and value-payable registered parcels may be insured up to the value of Rs. 600 at such branch post offices, and up to the value of Rs. 2,000 at such other post offices, as are authorised to accept articles for insurance; provided that in no case shall such value exceed the real value of the contents of the article insured. These postal articles may be insured, even though the contents, such as legal documents, do not possess any intrinsic value.

NOTE.—Branch post offices are printed in ordinary small letters in the list at the end of this *Guide*.

119. Complete and partial insurance.

Insurance is of two kinds, complete and partial. *Complete* insurance covers all risks in course of transmission by post. *Partial* insurance covers all risks in course of transmission by post in British territory, and all risks, except those arising out of highway robbery, in course of transmission by post in such Indian State territory as is specified in this behalf.

120. Offices which can insure.

Articles may be insured at all post offices named in the list at the end of this book, with the exception of those marked B and C and for all post offices named in the list with the exception of those marked B; but partial insurance is availabe only for such articles as are addressed to or despatched from the post offices distinguished in the list by the letter I.

121. Fees.

In addition to the postage and the fee for registration, the following further fees are charged for insurance:—

	Anna.
When the value insured does not exceed Rs. 50	1.
For every additional Rs. 50 or fraction thereof	1.

The further fees in the case of partially insured articles are charged at only half the above rates.

NOTE.—For the purpose of this rule, the value of a half currency note is taken to be the same as that of the whole note of which it is a part.

122. Prepayment compulsory.

The prepayment of all charges on insured articles, namely, postage, registration, and insurance fees, is compulsory. Payment in all cases must be made by means of postage stamps affixed to the articles. The stamps must be placed apart from one another so that they must not serve to conceal injuries to the letter or parcel.

123. Packing.

(1) Every letter tendered for insurance must be enclosed in a strong cover, which must be securely fastened and sealed with fine wax bearing a private mark, in such a way that it cannot be opened without either breaking the seals or leaving obvious

traces of violation. No label of any kind should be affixed by the sender to such a cover. Envelopes with black or coloured borders must not be used. Seals must be placed over each flap or seam of the cover; and if the cover is tied round with string or tape, a seal must be placed on the ends where they are tied. As an additional precaution (if the contents admit of it) a thread should be passed through the cover and its contents and tied, the knot being placed under the central seal.

(2) Every parcel tendered for insurance must be packed carefully and substantially, with due regard to the nature of the contents and the length of the journey, and must be sealed with wax or lead bearing a private mark, in such a way that it cannot be opened without either breaking the seal or leaving obvious traces of violation. Seals must be placed over each joint or loose flap of the covering of a parcel; and, if string be used in packing, a seal must be placed on the ends of the string where they are tied. If a parcel contains gold bullion or coins, it must be packed in a stout wooden case with an outer covering of cloth or stout paper.

(3) All the seals affixed to an insured article must be of the same kind of wax and must bear distinct impressions of the same private device. The device must not be that of a current coin or merely a series of straight, curved, or crossed lines.

NOTE.—It is recommended that registration envelopes (sold at all post offices, be used for insured letters.

124. Size and other conditions.

No postal article will be accepted at any post office for insurance if it is so small or so covered with writing or sealing-wax on the address-side, or otherwise made up in such a manner, as to render it impracticable to affix to the article the prescribed official labels of the Post Office.

Explanation.—This rule does not apply to an article which has an address labelited to it, provided that the label is not so small or so covered with writing on the address-side as to render it impracticable to affix to that side the prescribed official labels of the Post Office.

125. Manner of insuring.

An article intended for insurance must be presented at the window of the post office with the amount for which the sender wishes it to be insured clearly written, in words and figures, without erasure or correction on the cover. The name and address of the sender must also be written on the cover in the lower left-hand corner, or on a separate slip of paper, to be presented with the article, should there be no room for his name and address on the cover.

126. Failure to comply with conditions.

Articles not properly packed, or not fully pre-paid, or which do not comply with the conditions prescribed in clauses 123, 124 and 125 will not be insured.

A receipt will be given to the person who presents an article for insurance at the post office window during the hours prescribed for posting insured articles.

127. Receipt given to sender.

An article insured for Rs. 250 or any sum less than Rs. 250 will be delivered in the ordinary manner. An article insured for more than Rs. 250 will be delivered only at the post office window, intimation of arrival being sent by the post office to the addressee. The addressee of an insured article (or his agent) must sign in ink both the receipt and acknowledgment relating thereto unless the outward appearance of the cover gives rise to suspicion of tampering. In such case he should arrange to open the article at the post office, in the presence of the postmaster, and to have its contents entered in an inventory which will be prepared in duplicate, and must be signed by the addressee. One copy of the signed inventory will be forwarded by the post office to the sender, with the unsigned acknowledgment attached to it.

128. Delivery of insured articles.

NOTE.—When an insured article issued for delivery is not accepted by the addressee, it will not be sent out a second time: an intimation of its arrival will be made over to him and the article will be delivered at the post office on *presentation* of the intimation with the receipt and acknowledgment duly signed. If the addressee of an insured article, after an intimation of its arrival has been delivered, omits to take delivery of the article within the time specified in the intimation, it will be returned to the sender.

The sender of an insured article is entitled to obtain, free of charge, an acknowledgment of its delivery signed by the addressee.

129. Special acknowledgment.

NOTE.—The sender may himself fill up the form of acknowledgment to be signed by the addressee and is recommended to do so. Copies of the prescribed form of acknowledgment may be obtained free of charge at the post office.

There will be payable to the sender of an insured postal article compensation not exceeding the amount for which the article has been insured, for the loss of the postal article, or any of its contents, or for any damage caused to it in course of transmission by post: provided that the compensation in no case exceeds the value of the article or any of its contents lost or the amount of the damage caused, and provided that, in the case of loss, the sender furnishes full particulars of the contents of the postal article and their value: provided, also, that no compensation will be payable.—

130. Responsibility of Post Office.

addressee, and he has signed and returned the receipt therefor;

(*d*) where the sender has not given intimation of the loss within three months from the date of posting;

(*e*) where the loss or damage was due to improper or insecure packing;

(*f*) where there is no visible damage to the cover or seals, it being understood that the sender must so pack the letter or parcel that its contents cannot be touched without visible damage, as aforesaid, being caused;

(*g*) in the case of partially insured articles, where the loss or damage was caused by highway robbery during the transit in respect of which the insurance is partial only;

(*h*) in the case of the loss of halves of currency notes, where the halves which are safe have not been made over to the Post Office;

(*i*) in the case of damage arising from the nature of the article insured; or

(*j*) where the insured article contained anything the transmission of which by post is prohibited.

131. Compensation.

(1) Compensation will be payable one month after the date on which intimation of loss is given by the sender to the Post Office, except in cases in which the Postmaster-General may consider that the circumstances demand the withholding of payment pending inquiry.

(2) If, after compensation has been paid for the loss of a postal article or of any portion of its contents, the contents or any portion thereof are subsequently recovered, the recovered contents will be dealt with as follows, namely:—

(*a*) If the value of the recovered contents added to the amount of compensation paid is not in excess of the amount of the loss, the recovered contents will be restored to the sender;

(*b*) If the value of the recovered contents added to the amount of compensation paid is in excess of the amount of the loss, the Post Office will be entitled either to restore the recovered contents to the sender on his repaying the amount of such excess, or to retain and dispose of so much of the recovered contents as may be held by the Postmaster-General to represent such excess and restore the rest of the recovered contents, if any, to the sender.

Coin, bullion, precious stones, jewellery, currency notes or any portion thereof, and articles of gold or silver may be sent by post only in insured registered letters or insured parcels. If a letter or parcel presented at the post office window is found to contain any such object of value, it will not be accepted for transmission by post, unless the sender insures it; and, if an uninsured article manifestly containing any such object of value is found in course of transmission by post, it will be either intercepted and returned to the sender, or fowarded to destination and delivered to the addressee subject to the payment of a fee of one rupee. The payment of this fee will not impose any liability on Government.

132. Cases in which insurance is compulsory.

Explanation.—In this rule, the expression "articles of gold or silver" includes articles made wholly or partly of gold or silver, but not electro or other plated goods. The expression "currency notes" does not include defaced notes, *i. e.*, notes from which the signature has been cut off after cancellation, remitted on behalf of the Currency Department.

NOTE—The fee of one rupee imposed under this rule will be recovered from the sender if the article is refused by the addressee or if the addressee cannot be found.

VALUE-PAYABLE ARTICLES.

133. Value-payable post.

The value-payable system is designed to meet the requirements of persons who wish to pay for articles sent to them at the time of receipt of the articles or of the bills or railway receipts relating to them, and also to meet the requirements of traders and others who wish to recover, through the agency of the Post Office, the value of articles supplied by them.

134. Value-payable articles

Registered parcels, registered letters, and registered book packets, may be transmitted by the Inland post as value-payable postal articles, provided that the amount specified for remittance to the sender in the case of any such postal article does not exceed 1,000 rupees and—except in the case of postal articles sent by, or addressed to, any department of the Government or a District, Local, or Municipal Board—does not include a fraction of an anna, and provided that such parcels, letters and packets do not contain coupons, tickets, certificates or introductions designed for the sale of goods on what is known as the "Snowball system."

The sender of a value-payable parcel for the United Kingdom may note on the parcel a request that, if the parcel is undeliverable at the expiration of 15 days from its arrival at the place of destination, it is to be *a* abandoned or *b* delivered at a second address. In the absence of a definite request for abandonment, a parcel which is undeliverable at the original address, or at the alternative address if one is furnished, is returned to the sender at his expense, without previous notification.

The sender of a value-payable parcel for the Straits Settlements must indicate by means of a label attached to the cover of the parcel, whether in the event of non-delivery within 14 days of its arrival at the office of destination, it shall be (*a*) treated as abandoned or (*b*) returned at the sender's expense. No other alterative is permissible.

136. Declaration.

No such postal article as aforesaid will be accepted at any post office for transmission by post as a value-payable postal article unless the sender declares that it is sent in execution of a *bona-fide* order received by him. At any post office notified from time to time in this behalf by the Director-General, the sender will, in addition, be required to declare that the article is one the transmission of which by post as a value-payable postal article is permitted. No postal article as aforesaid will be accepted at these offices without such further declaration.

Explanation.—An article may be sent by the value-payable post even though it possesses no intrinsic value. Thus, legal documents, bonds, policies of insurance, promissory notes, railway goods and parcel receipts, bills-of-lading (except to the Straits Settlements), or ordinary bills for collection may be sent

as value-payable postal articles. In the case of a railway receipt or bill-of-lading sent as a value-payable postal article, it will be sufficient for the purposes of this rule if the article to which the railway receipt or bill-of-lading relates has been sent in execution of a *bona fide* order. In the case of the other documents specified the document must be sent in exception at a *bona fide* order to send the document itself.

137
Post offices from and to which V.P. articles may be sent.

Value-payable postal articles can be posted at any post office that is a money order office (with a few exceptions) for transmission to any other post office that is a money order office. All post offices are money order offices, except those that are distinguished in the List of Post Offices at the end of this book by the letter D opposite their names.

138.
Manner of posting.

Every postal article intended to be transmitted by post as a value-payable postal article must be presented at the post office with the prescribed printed form in which the sender must specify the sum to be remitted to himself, fill in the required entries, and sign the declaration required by clause 136. If the article is a parcel intended for delivery in the United Kingdom a fee calculated according to the schedule below on the amount specified for remittance to the sender must be prepaid by the sender by affixing postage stamps of the value of the fee to the article itself. The sender must also write clearly on the face of the article itself:—

(a) in the upper left-hand corner—the letters "V. P." or, in the case of valuepayable parcels for the United Kingdom, the word "Rebourseinent," followed by an entry, in *figures and words*, of the amount for remittance to himself, and

(b) in the lower left-hand corner—his own name and full address.

NOTE.—The sender's name and address may be indicated by the clear impression of a stamp on the value-payable article.

Schedule of Fees.

Amount specified for remittance to sender—	not exceeding Rs. 10.	2 annas.
	exceeding Rs. 10 but not exceeding Rs. 25.	4 annas.
	,, Rs. 25 ,, ,, ,,	4 annas.

for each complete sum of Rs. 25, and 4 annas for the remainder, provided that if the remainder does not exceed Rs. 10, the charge for it shall be only 2 annas;

(2) In the case of a postal parcel intended for transmission to the United Kingdom as value-payable, a posting fee of 2 annas must also be prepaid by the sender by affixing postage stamps of the value of the fee to the article itself.

139.
Conditions.

No article will be accepted at any post office for transmission by post as a value-payable postal article if it is so small or so covered with writing or sealing wax on the address-side or otherwise

made up in such a manner as to render it impracticable to affix to the article the prescribed official labels of the Post Office.

Explanation—This rule does not apply to an article which has an address-label tied to it, provided that the label is not so small or so covered with writing on the address-side as to render it impracticable to affix to that side the prescribed official labels of the Post Office.

140. Forms. The form, prescribed to be filled up by the senders of value-payable articles, can be obtained *gratis* at the post office. Books containing 50 forms, with counterfoils, can also be obtained at a cost of one anna per book.

NOTE.—Firms which post value-payable articles in large numbers can also avail themselves of the advantages of a special procedure under which they will assign, in special journals which will be supplied to them, their own numbers to the value-payable articles posted by them and will thus have no difficulty in tracing each article in payment of which a money order is received. Firms desirous of adopting this arrangement should apply to the local post office for detailed instructions regarding the procedure to be followed.

141. Manner of delivery. (1) If the amount to be recovered on a value-payable article exceeds Rs. 25, an intimation of its arrival will be sent by the office of destination to the addressee. Such articles will be delivered at the post office on payment of the amount entered in the form of receipt on the reverse of the intimation, and on *presentation* at the post office of the intimation with the receipt on the reverse duly signed.

(2) If the amount to be recovered on a value-payable article does not exceed Rs. 25, the article will be delivered by the postman at the addressee's residence on payment of the amount recoverable, and on the addressee signing the receipt on the reverse of the intimation presented with the article.

142. Payment to sender. (1) The amount to be recovered from the addressee will be the sum specified by the sender for remittance to himself *plus*, in the case of all articles other than parcels received from the United Kingdom a fee calculated as in paragraph 1 of clause 138. A delivery fee of 2 annas on every parcel transmitted from the United Kingdom as value-payable will also be levied from the addressees. When the amount due is recovered from the addressee, the sum for payment to the sender will be remitted to him by means of a money order.

(2) If the addressee of a value-payable article refuses it, or if, after a notice of its arrival has been presented to him, he omits to take delivery of the article within the time specified in the notice, it will be returned to the sender, who will be required to pay any charges that may be due on it, and to acknowledge

receipt of the article by signing the form presented by the postman. In no circumstances will the fee or fees prepaid in stamps, be refunded.

NOTE 1.—The conversion into Indian Currency of the amount specified for remittance to the sender of a value-payable parcel posted in the United Kingdom will be effected at the rate of exchange for the payment of Foreign sterling money orders received for payment in India and advised on the date of receipt of the parcel in the Indian Post Office of exchange concerned.

NOTE 2.—A postmaster is authorised to comply with a written request from the sender of a value-payable article posted in India or in Ceylon to deliver such article to the addressee free, or to alter the sum originally specified for remittance to himself provided that such requests are communicated *through the office of posting* and that the value-payable article has not been returned to the office of posting when the request of the sender reaches the office of delivery.

NOTE 3.—*See clause* 101.

143. Insurance of V. P. articles.

The sender of a value-payable registered parcel or registered letter can also insure it under the rules relating to Insurance (*see* clause 118, *et seq*). The value declared for Insurance need not correspond with the amount specified by the sender for remittance to himself. Thus, in the case of a watch returned after repairs per value-payable post to its owner, the amount to be remitted to the sender of the watch would be only the cost of repairs, while the sum insured would represent the value of the watch itself.

144. Complaints regarding value-payable articles.

(1) Whenever the sender or addressee of a value-payable postal article makes a complaint regarding the delivery of, or payment for, the value-payable postal article, he will be entitled to have an enquiry made by the post office on paying a fee of one anna. The fee will be paid by means of a postage stamp or stamps affixed to the letter of complaint. This fee will be refunded in cases where the complaint is found to be well-grounded.

(2) The complainant will be required to furnish full particulars regarding each value-payable article to which the complaint refers and to pay the prescribed fee of one anna in respect of each article.

145. Responsibility of Government.

The Government will not incur any liability in respect of the sum specified for remittance to the sender in respect of a value-payable postal article, unless and until that sum has been received from the addressee.

RAILWAY RECEIPT-NOTES SENT VALUE-PAYABLE.

146. Conditions.

A railway receipt-note for goods may be transmitted by the inland post open as a value-payable postal article:

Provided that—

(1) the goods to which the railway receipt-note relates do not exceed Rs. 1,000 in value;

(2) the railway receipt-note shows on its face that the goods to which it relates have been consigned to the sender himself, is endorsed to the person to whom the goods are to be delivered, and is signed by the sender; and

(3) the entries required to be made by the sender of a value-payable article on the article itself are made either on the back of the railway receipt-note or on a separate piece of paper securely affixed by the sender to the back of the railway receipt-note.

NOTE.—It is recommended that the endorsement should contain the following advice:—

"As the consignment is addressed to ourselves, you will not receive an arrival notice from the Railway. Please, therefore, enquire for the consignment at the station."

147. Manner of posting.

The open railway receipt-note should be presented at the post office with the printed form prescribed for registered value-payable postal articles, in which the sender must specify the sum to be remitted to himself, fill in the required entries and sign the declaration that the article is sent in execution of a *bona fide* order received by him.

148. Fee to be paid.

A fee of two annas must be paid on each railway receipt-note presented for transmission by post open. The fee must be paid in postage stamps, which must be affixed by the sender to the receipt-note.

149. Delivery of railway receipt-note.

The post office will transmit the open railway receipt-note to the post office of destination, and will deliver it to the person to whom it has been endorsed by the sender, in the manner prescribed for the delivery of value-payable postal articles, on his paying tle amount recoverable.

105. Remittance of amount payable to sender.

When the amount is recovered, the sum for payment to the sender will be remitted to him in accordance with the ordinary rules relating to value-payable postal article.

Example:—Messrs. Brown & Co., Lucknow, wish to despatch certain article to J. Smith, Calcutta; under these rules Messrs. Brown & Co. should address the consignment thus:—

"MESSRS BROWN & Co

Calcutta."

and sign the railway receipt-note, which should then be endorsed to "J. Smith," and presented *open* at the post office (accompanied by the prescribed form in which the amount to be remitted to themselves should be stated) for transmission to J Smith. The post office will not deliver up the railway receipt-note without payment by J. Smith of the amount recoverable on it, and the Railway Administration will not grant him delivery of the goods without production of the railway receipt-note as evidence of his right to the consignment addressed to Messrs. Brown & Co.

151. Modification of conditions in certain cases.

A railway receipt-note for goods may be transmitted by post open under the foregoing rules, without compliance with conditions laid down in the second proviso to clause 142, if—

1st group—
Eastern Bengal Railway.
Darjeeling-Himalayan Railway.
2nd group—
Patiala Railway.
Amritsar-Pathankot Railway.

(1) it relates to goods sent from any station on the marginally-named Railway for delivery at station on a Railway belonging to the same group; and

(2) it shows on its face that the goods so sent have been declared at the booking office as being sent under the value-payable system.

The Railways referred to above will not deliver up goods or parcels forwarded value-payable, except on production of the corresponding receipt-note.

Exception.—The only stations on the Eastern Bengal Railway which receive parcels for transmission under this clause are:—Armenian Ghat, Naihati, Goalundo, Chitpur, Ranaghat, Dacca, Calcutta, and Khoolna.

152. Responsibility of Post Office.

The Post Office will not be responsible for any delay or demurrage that may arise or for the delivery of the goods or parcels to which the receipt-note relates; the responsibility of the Post Office is confined solely to the collection of the value of the consignment, and it will rest with the consignee, after receiving delivery of the railway receipt-note, to obtain the article from the Railway Administration.

153. Saving of general rules.

Nothing in these rules shall be construed to prevent the transmission by post of receipt-notes enclosed in value-payable registered letters, or value-payable registered book packets under clause 134; but in such cases the goods or parcels may be delivered up by the railway without production of the corresponding receipt-notes and consequently without recovery from the consignee of the amount specified.

154. Application of rules to goods sent by steamer.

These rules apply also to receipt-notes for goods conveyed by steamer within the limits of British India.

31. ABBREVIATED ADDRESSES.

The addressee's name and address may be written in an abbreviated form, but the right of an addressee to have a telegram thus addressed delivered to him, is subject to an arrangement made between such addressee and the Telegraph Office which has to deliver the telegram. Abbreviated addresses may be registered under the following conditions:—

(1) Application for the registration of such addresses should be made to the officer in charge of the Telegraph Office, at which it is proposed to register an address. The Telegraph Department cannot arrange for registration of an address at any place in a foreign country.

(2) No address may consist of more than one word, in addition to the name of the town where registration is effected.

(3) The word should contain not more than ten letters, and should be easy to read and easy to telegraph. Proper names can only in rare cases be accepted, and in no case can a proper name be registered for a person of a different name.

(4) The names of professions, trades, countries, states, towns, telegraph-stations, well known states and registered newspapers may not be used as registered addresses.

(5) Numbers may not be registered.

(6) To prevent inconvenience to the public, the Telegram Department has to reject words which either in writing or in telegraph symbols so closely resemble other registered words as to be liable to be mistaken for them. It is desirable, therefore, that any application should not merely offer one word for acceptance but should give several words from which a selection may be made.

(7) No address may be registered in one town for the delivery of telegrams in another town.

(8) A registered address is available for telegrams from other countries as well as for Inland telegrams.

(9) The Telegraph Department reserves to itself the right to cancel an address. In such a case a part of the registration fee proportionate to the unexpired period, is returned, or a new address may be substituted free of charge for the one cancelled.

(10) In the event of a change in the title of a firm for which an address is recorded, the consent, in writing, of all the partners of the firm must be produced before the records can be altered.

(11) The fee for registration of an abbreviated address, which should be paid to the officer in charge of the Telegraph Office at which registration is effected, is Rs. 10 yearly, or Rs. 5 half-yearly payable in advance. When, however, a number of abbreviated addresses are registered by a single firm either at the same Telegraph Office or at different Telegraph Offices, * the fee for registration is:—

For the first ten abbreviated addresses . .	Rs. 10	each
For the second ten abbreviated addresses .	Rs. 5	„
For each subsequent abbreviated address .	Rs. 3	„

(12) An additional fee, equal to half the registration fee, is charged for every change of the word selected, or for every transfer to another Telegraph Office within the period of registration, but not for change of residence within the delivery limits of the registering office, or for change of name, or title of firm or person, so long as the identity is the same (see condition, 10), and it is not a case of transfer from one firm to another; if it is a case of transfer the full fees are charged.†

(13) The Telegraph Department accepts no responsibility in respect of the delivery of any telegram having an abbreviated address if such address has not been registered, or for delay in delivering such telegram. Registration is essential in all cases of persons who frequently receive telegrams addressed to them by an abbreviated name, and Telegraph officials can decline to deliver such telegrams if, after notice has been given, the address has not been registered.

TRAVELLERS' BUNGALOWS IN TRAVANCORE.

RULES FOR FIRST CLASS TRAVELLERS' BUNGALOWS IN TRAVANCORE.

All Travellers' Bungalows are in charge of the Travancore Public Works Department. Complaints as to negligence or inefficiency of the servants should be addressed to the Superintendent, State Guest House, Trivandrum. Complaints of a more serious nature may be made to the Chief Engineer.

2. When accommodation is required by other travellers and unless compelled to do so by illness, no person is permitted to halt at a Travellers' Bungalow for more than twentyfour hours.

NOTE.—Special permission for a halt not exceeding 10 days may when accommodation is available, however, be obtained on a written application to the Executive Engineer in charge of the Division.

Fees for Occupation.

	Rs.	as.	ps.
(*a*) For each adult, for the first six hours in any one day or portion thereof ...	0	8	0
(*b*) For each adult for any period greater than six hours in any one day ...	1	0	0
(*c*) Servants with luggage or conveyances travelling in advance of or without their masters are required to pay half the above fees when accommodation is available.			

NOTE.—The day is counted from midnight. Full fees are charged for the father and mother or two senior members of a family, and half fees for the children or minor members.

3. The first applicant is entitled to choice of rooms. He may not however appropriate to himself more than one suite consisting of bed dressing and bathroom.

4. When accommodation is required by a family, the Butler shall allocate the available accommodation according to the demand. Each room is provided with necessary articles of furniture. Should furniture be taken from unoccupied rooms, it must immediately be replaced when required by other travellers.

5. Every occupier of a travellers' Bungalow is required to furnish his full name and address when demanded by the Butler in charge and to sign in the book on payment of Bungalow Fees. He is further requested to obtain from the Butler a cash receipt for all payments for catering.

6. A list of crockery and furniture supplied to the Bungalow showing the value of each article is maintained in the Bungalow. The full value of articles damaged or broken by the traveller or his servants will be recovered from him before leaving the Bungalow. 7. When a traveller halts at a Bungalow for more than two full days the Butler is entitled to demand payment of the fees due at the end of the third day.

9. When accommodation is required by other travellers, rooms cannot be booked in advance nor can meals be prepared except at the discretion of the Butler. The Butler is expected however to exercise his discretion in a reasonable manner and to provide for the convenience of the travellers as far as possible.

10. No article shall be removed from the Bungalow except under the orders of the Chief Engineer, nor shall the Bungalow be occupied by other than *bona fide* travellers.

11. These Bungalows are maintained by Government in the interest of the travelling public; persons occupying them are therefore expected to exercise due consideration and regard for the Bungalow and furniture. Persons defacing the walls or wilfully damaging or dirtying the furniture are liable to expulsion.

12. A list showing the names and designation of the servants is posted up in the Bungalow for the information of travellers.

13. The Butler in charge is ordered on pain of dismissal to report any deviation from these rules on the part of the travellers who will also be responsible for the acts of their servants.

BRITISH INDIA STEAM NAVIGATION COMPANY (Ltd)

COLACHEL, AGENTS, MADURA CO., Ltd.

Throughout the year, including the period of the South West-Monsoon provided sea is not too rough for boats to work, the *fortnightly coasting steamers* of the Company *going northward only* call at Colachel.

Cargo can be booked through, via Bombay, or Colombo to London, Liverpool and also to the chief American, Australian and European ports.

Residents in Travancore and South Travancore desirous of importing any goods from the United Kingdom or the Continent should instruct their friends at home to ask for, and procure, a through Bill of Lading to Colachel optional port Alleppey, (transhipment at Colombo) and to confine their booking as far as possible entirely to the British India Steamers from Home, as this procedure saves consignees from having to pay transhipment and other agency charges in Colombo which are heavy and always incurred when goods destined for Colachel arrives in Colombo by steamers other than those of British India line, unless they happen to be on a through Bill of Lading. There are no direct steamers from Europe to Colachel, so all goods must be transhipped at Colombo.

Consignees are strongly advised to arrange their shipments from Europe so that they may arrive at Colachel in the fine weather season viz., October to May inclusive. There is then little risk of overcarriage owing to rough sea preventing boats at Colachel working, and boat hire charges are less during these months than in the Monsoon months of June to September.

Passengers can be booked to Bombay or intermediate ports at the following rates ;

		First Class.	Second Class.	Deck
Alleppey	Rs.	19-0-0	9-8-0	4-00
Cochin		37	19-8	6
Calicut		47	3-8	10
Tellicherry } Cannanore }		61	30-8	12
Mangalore		75	37-8	18
Bombay		112	56	16

Passengers from South Travancore proceeding to Europe between October and May inclusive can have their heavy baggage shipped from Colachel as cargo thus saving themselves much trouble and obviating the expense of cart and railage to Tuticorin and Colombo or other ports of departure of the various passenger liners. Cases may be securely hooped and marked at Colachel at slight cost and every precaution will be taken for their safe delivery on board,

Adequate marine insurance if desired can be effected through Madura Co., Ltd. at lowest rates.

No. S. R. 2295.

NOTIFICATION.

Under sanction of His Highness the Maha Raja, the following revised rules are passed for regulating the export of goods once imported into, and the import of goods once exported from, Travancore permitted under para 2 of the Proceedings of the Government No. S. R. 221, dated the 26th September 1910, as modified by the Proceedings of the Government No. S. R. 2126, dated the 6th September 1912.

These rules shall apply only to the Customs houses mentioned below:—

The Arukutty Customs house.

The Sea Customs houses at Alleppey, Quilon, Trivandrum and Colachel.

The Railway Customs house at Quilon, and the Aramboly Customs house.

A. The export of goods which had been previously imported.

1- The owner of the goods should, at the time of the import, make a declaration, in such form as the Excise Commissioner may prescribe, and present the same to the officer in charge of the Customs house through which the goods are imported, for the grant of a certificate to enable him to export the goods free of duty, later on, through one of the Customs houses mentioned above.

2. On receipt of such declaration and on production of the goods mentioned therein, the officer in charge of the Customs house through which the import is made shall weigh the entire consignment and enter in a register, to be specially kept for the purpose, the results of the weighment, the description of the

goods, the number of packages, the name of the importer, the date of the import and the Customs house through which the goods are intended later on to be exported.

3. The officer in charge of the Customs house through which the import is made shall grant a certificate to the importer, in such form as may be prescribed by the Excise Commissioner. The Certificate so granted shall be in force only for a period of six months from the date of issue.

4. The officer in charge of the Customs house through which the import is made shall forward the duplicate of the certificate to the officer in charge of the Customs house through which the goods are intended to be exported, while the original declaration made by the owner of the goods at the time of the import shall be sent to the officer in charge of the circle into which the import is made.

5. The owner of the goods shall present to the officer in charge of the Customs house through which the goods are to be exported, the original certificate granted by the officer in charge of the Customs house of import. On receipt of such certificate, and on production of the goods, the former officer shall satisfy himself that the goods produced for export are equal in weight or number to those described in the duplicate certificate received from the officer in charge of the Customs house of import, and that the property in the goods has continued with the person by whom or on whose account they had been imported.

6. The officer in charge of the Customs house of export shall then re-weight the entire consignment and enter the results of such re-weighment in a register kept for the purpose. If no difference is observed between the results of the original weighment as given in the duplicate certificate and the results of the re-weighment, the goods shall be passed free of duty.

7. All cases in which there are reasonable grounds for doubting the continuity of the ownership in the goods shall be reported for the orders of the officer in charge of the circle.

8. In cases where the results of the original weighment and the re-weighment show any difference, the officer in charge of the Customs house of export shall adopt the following procedure: —

(a) If the re-weighment shows an increase, not exceeding 10o/o of the original weight, the quantity found in excess shall be assessed to duty and passed, while the quantity which is equivalent to the original weight shall be passed free of duty.

(b) If the re-weighment shows a decrease, not exceeding 10o/o of the original weight, the goods shall be passed free of duty.

(c) In all other cases, the goods shall be detained and the fact reported for the orders of the officer in charge of the circle.

9. Whenever goods are passed under Rule 6, or under clause (a) or (b) of Rule 8, the officer in charge of the Customs house of export, passing the goods, shall forward the original certificate delivered by the owner of the goods, after entering therein the quantity passed free of duty and the quantity assessed to duty, if any, to the officer in charge of the Customs house through which the import had been made. The latter officer shall, on receipt of the certificate, affix it to its counterfoil.

10. In case where the goods are intended to be exported through the Customs house through which they had been previously imported, the officer in charge of the Customs house shall forward to the officer in charge of the Circle the declaration made by the owner of the goods as well as the duplicate of the

certificate granted to him. On production of the goods and of the original certificate at the time of the export, the officer in charge of the Customs house shall act in accordance with Rules 5, 6, 7, 8, and 9 in so far as they are applicable to him.

B. The import of goods which had been previously exported.

1. The concession granted in regard to the refund of seven-eights of the export duty levied on goods previously exported, and brought back into Travancore within six months from the date of the original exportation, shall apply only to cases where the export and the import take place through the same Customs house.

2. Owners of goods who import them into Travancore within six months from the date of their previous export and who claim the refund of seven-eighths of the export duty levied at the time of the original exportation, shall produce with the goods an application for such refund, together with the original receipts granted to them in respect of the levy of such duty.

3. The officer in charge of the Customs house before whom the goods and the receipts are produced shall satisfy himself that the goods are equal in weight or number to those described in such receipts and that the property in them has continued with the person by whom or on whose account the goods had been previously exported.

4. He shall then weigh the entire consignment, and after comparing the results with the original receipt produced by the owner of the goods as well as with the entries in the Nalvazhi made on the date of export, he shall forward a report to the officer in charge of the circle.

5. On receipt of such report, the officer in charge of the circle shall, after satisfying himself as to the weight or number of the goods and the continuity of the property in them, report the case, with his opinion thereon, for the orders of the Excise Commissioner. Such report shall be accompanied by.—

(*a*) The original receipt produced by the owner of the goods, and

(*b*) the duplicate receipt, the original and the duplicate manifests, as well as the copy of the Nalvazhi received and recorded in his office soon after the original export.

6. On receipt of such report from the officer in charge of the circle, the Excise Commissioner shall, in case he is satisfied that the refund is allowable, order such refund.

NOTIFICATION.

No. J. 3734.

Rules under Sections 4, 5, 6, 7 and 8 of the Weights and Measures Regulation VI of 1085, made by the Government of His Highness the Maharajah of Travancore under date the 10th June 1912/28th Edavom 1087.

I. Standards.

1. The primary standards of weights and of measures of length and of capacity, prescribed in Section 2 of the Regulation, are given below.

(1) The primary standard of weight is the "Tola," equivalent to 180 grains Troy or one British Indian rupee.

(2) The Primary standard for measures of length is the "Yard" equal in length to the standard yard of British India.

(3) The primary standard for measures of capacity is the "Edangali," equal to 80 cubic inches of water.

2. The originals of the above said primary standards of weights and measures shall be in the custody of the Chief Engineer at Trivandrum.

3. The aforesaid originals of the primary standards of weights and measures shall bear, besides the impression of His Highness the Maharajah's Coat of Arms, the inscription :—

(1) 1 Tola.........Standard weight........Travancore State;
(2) 1 Yard...Standard measure of length...Travancore State;
(3) 1 Edangali...Standard measure of capacity...Travancore State.

4. The units of weights and of measures of length and of capacity are, as prescribed in Section 3 of the Regulation, for weights, the said Tola; for measures of length, the said Yard; and for measures of capacity, the said Edangali.

5. All weights and measures forming integral multiples or integral sub-multiples of the above units of weights and measures are authorized sets of weights and measures, as laid down in Section 3 of the Regulation.

6. The weights and measures described in Schedule II hereto appended, or that may hereafter be so declared, shall, under Section 4 of the Regulation, be authorized sets of weights and measures, though they do not form integral multiples or integral sub-multiples of the units of weights and measures aforesaid.

7. No weights, measures, weighing machines or balances, not authorized or certified under the provisions of this notification, shall after the 16th November 1913 be used in any dealing or contract that is, had or made and has its operation within the Travancore State. Any person acting in contravention of this Notification, shall be liable to punishment, as provided in Section 10 of the Regulation.

II. Wardens.

8. All taluk Tahsildars and Deputy Tahsildars and the Treasury Officer and the Deputy Tahsildar, Alleppey Major Treasury, shall be supplied by the Chief Engineer with certified copies of the primary standards and also with sets of authorized weights and measures, and balances, for purposes of testing and stamping under the provisions of this Notification, and the said officers shall be ex-officio Wardens for the said certified copies and the said sets of weights and measures and balances. In regard to liquid measures, the copies and sets to be supplied by the Chief Engineer should be of the description of the "special vessels" referred to in clause (5) of Rule 21 *infra*.

9. Besides the standards and sets of weights and measures and balances supplied under the preceding Rule, the Wardens shall also be supplied by the Chief Engineer with dyes for stamping weights and measures in the manner hereinafter described.

10. All officers of the Government who have to use weights and measures in the discharge of their duties, all managers of companies, and all persons engaged in business or trade, shall submit, for verification, to the Warden within whose local limits the head-quarters of the officer concerned is situate, or the business or trade is conducted, the weights, weighing machines, and balances and measures used by them in their dealings, at least once in two years, and pay, for such verification, the fees prescribed hereunder.

11. The Warden shall, on payment of the regulated fees, verify, and shall, if requested so to do, correct, all weights, weighing machines and measures, purporting to be weights and measures authorized under this Notification, and all balances which are brought to him for verification or correction and which appear to him fit for verification or correction. When such weights, weighing machines, measures and balances are found or made correct, and are in conformity with the requirements of this Notification, he shall certify to the correctness and conformity, by stamping, engraving or branding them with the proper mark in the manner hereinafter described.

12. The Warden may, as mentioned in Section 8 of the Regulation, deface, or render incapable of use, or refuse to verify, correct or mark anything so brought, which appears to him unfit for verification or correction.

13. The work of testing and stamping weights and measures shall be done under the supervision of the Wardens by such establishments as may be appointed for the purpose.

14. There shall be appointed, for duty under each Warden such establishment as the Government may, from time to time

decide, and the charges on account of such establishment shall be met from the fees collected under the provisions of this Notification.

III. Instructions for testing and stamping Weights and Measures.

15. The object of stamping weights and measures being to induce the recognition of the established standards, no weights and measures not being multiples or fractions of the authorized standards as described in Rule 5, or not being authorized sets of weights and measures as described in Rule 6, shall be passed by the Warden.

16. Only metal weights and measures shall ordinarily be stamped; but where wooden measures are largely in use, they may also be stamped. Every endeavour should, however, be made to induce merchants and others to adopt metal measures in lieu of wooden ones.

A. Testing of weights.

17. The balances supplied to the Wardens being true and sensible, no necessity arises for trying them as to their accuracy before they are used for the verification of weights brought to the Wardens for being stamped. When, however, weights have to be verified by standard weights and only common scales or balances are available, the first thing to be done is to try the balance as to its degree of sensibility (apart from the question of its equilibrium) in the manner hereinafter indicated.

18. Balance brought for verification should be tested as to their accuracy in the manner hereinafter set forth.

The requisites of a good balance are,—

(1) It should be true, *i. e.*, when loaded with equal weights, the beam should be horizontal. This requisite is obtained by making the scale-pans of equal weights and the two arms exactly similar in every respect. The truth of a balance may be easily tested by interchanging the weights which keep the beam in equilibrium, when horizontal; if the beam settles again into a horizontal position, the weights are equal and the balance true, but not otherwise.

(2) A balance should be sensitive, *i. e.*, when the weights differ by a small quantity, the deviation of the beam from the horizontal should be easily perceptible. If a beam does not turn with 1,500 part of the weight that may be in one scale, it cannot be used for very accurate purposes.

(3) A good balance should be stable, *i. e.*, it should readily return to its position of equilibrium when moved from it, *i. e.*, its time of oscillation about its position of equilibrium should be small

If the sensitiveness of a balance be very great the addition of a small weight to either scale will cause the beam to oscillate and some time will elapse before it attains its position of equilibrium, on this account, the beam is sometimes furnished with a pointer and a graduated arc of a circle. If the pointer oscillates through equal arcs on opposite sides of the point which corresponds to horizontality, the scales may be considered to be equally loaded, without waiting to ascertain whether the beam will ultimately rest in a horizontal position.

Balances used for weighing medicines, gold, diamonds and other precious stones should undergo rigid test as to their sensibility.

19. Besides the common balance, weighing machines called steel-yards or Vellikoles, in which one and the same weights made use of in all cases, are also used.

The most commonly used form of Vellikole corresponds to what is called the Danish Steel-yard, in which the weight is fixed to one end of the beam and the fulcrum is moveable, the thing to be weighed being suspended at the other end of the beam. The beam of the Steel-yard is graduated to denote the point where the fulcrum should be when there is a weight in the scale-pan equal to the weight marked at the point.

Steel-yards brought for verification should be tested as to the accuracy of the graduations.

20. Weights received for verification should be examined thus :—

Suppose a weight purporting to correspond to the standard Tola is brought for verification. Place the standard weight in the right-hand scale and exactly counterbalance it, then take it out and put in its place the weight to be verified. If the beams show an equipois, the weight is correct. It is of no consequence whether the arms of the beam be equal or not or, in other words, whether the scales are or are not correct.

B. Testing of Measures of Capacity, i. e., Dry and Liquid Measures.

21. (a) The first thing to be done in the case of dry measures is to measure the diameter carefully. If the diameter of the measure is exactly the same as that of any of the authorized measures under Rules 5 and 6 the measure may be accepted for testing. If not, the measure should be rejected, as differences in shape are liable to cause variations in the contents of things which do not fill all space.

Note :—If a measure is not quite round, the mean between the longest and shortest diameters should be taken as the diameter of the measure.

"(b) All dry measures shall be used struck and not heaped. The standarad dimensions of the authorized dry measures shall be as follows:—

Measures.	Diameter in inch.	Height in inches.
Para	$8\frac{5}{8}$	$13\frac{11}{16}$
Edangali	4	$6\frac{3}{8}$
Irunali	$3\frac{1}{8}$	$5\frac{7}{32}$
Nali	$2\frac{1}{2}$	$4\frac{1}{16}$
Uri	2	$3\frac{3}{16}$
Ozhaku	$1\frac{5}{8}$	$2\frac{7}{16}$
The Nanjanad Marakal	$6\frac{1}{8}$	$10\frac{11}{32}$
,, padi	$3\frac{1}{4}$	$5\frac{3}{8}$
,, ozhaku	$2\frac{1}{8}$	$3\frac{5}{32}$
,, azhaku	$1\frac{1}{3}$	$2\frac{11}{16}$

Note.—The heights given above for the various measures shall not be used for purposes of testing, but are intended only as a guide to the manufacturers of those measures."

2. In the case of liquid measures, it is not necessary to employ the above test, as liquids fill all space, and differences in the shape of measures do not affect the contents.

3. The capacity of measures should be tested by volume of water, for the proper performance of which, the stamping officer will be supplied with a specially constructed certified copy of primary standard and a specially constructed set of authorized measures as provided in Rule 8 *supra*.

4. The following instructions should be attended to preliminary to the commencement of the process of testing:—

The best drinking water available should be obtained, as it is the clearest. The measure to be tested should be well washed out, and, if it is of wood, water should be allowed to stand in it for a quarter of an hour before testing so as to guard against absorbtion during the testing whereby the result would be falsified. If the measure is found to be leaky, the leaks should be caulked, on the outside only with a pitch or sealing wax.

5. The test should then be applied in the following manner:—

The rim of the measure should first be moistened; otherwise, water may stand without spilling, quite a sixteenth of an inch above it; and in a measure of 5 inches diameter, this will represent 1·39 tolas of rice. The measure should then be filled with water by pouring into it from the special vessels according to the size of the measure under examination. Care should be taken to pour the water withourt overtoping the rim of the measure or spilling. The surface of the water should be exactly

level with the rim. The quantity of water used to fill the measure can be easily ascertained from the number of times water was poured into the measure from the special vessels and from the quantity remaining in them. The quantity of water, if any, found to have been spilt or to have escaped by leakage should be deducted from the total quantity poured out from the special vessels. The remainder represents the capacity of the measure in cubic inches of water. If this is equal to the established capacity of the standard measure to which it purports to correspond, the measure may be taken to be correct and stamped accordingly; otherwise it should be rejected.

As it is almost impossible to pour out liquid from measures filled to the brim, without spilling, the measures used for the purpose of testing should be special vessels made with a narrow neck and broad lip for pouring, and standardized to cubic inches.

C. Stamping of Weights and Measures.

22. Subject to the provisions of Rules 5 and 6 *supra*, only those measures of length which agree with the standard yard measure should be stamped.

23. The process of stamping weights of measures and capacity should be conducted in accordance with the following directions:-

(1) Large weights should be stamped on the top close to the handle on either side and smaller weights on any part (the handles excepted) having sufficient even surface to receive the impression equally. Flat weights should be marked either on the top or underneath.

(2) Wooden measures should be stamped by means of a steel die at the very top, so as to guard against subsequent tampering.

(3) If there is a joining as the side of a measure, an impression should be made across it.

(4) To effect the stamping of metal measures, which should be stamped below the rim, it is necessary to introduce the beak of an anvil or beak iron into the vessel (held horizontally for the purpose); the part to be marked should be held closely and firmly down on the beak by one person, whilst another applies the die on the upper surface, and a third party strikes steadily with a sledge or heavy hand-hammer, until the required impression has been produced.

(5) Measures may also be marked on the bottom by being inverted on an iron stake with flat top somewhat larger than the die,

(6) In applying a large die on brass or iron, the sledge hammer must be used; for a small die, the heavy hand-hammer will be sufficient.

(7) In the case of weights or measures of irregular shapes in use by bazaar-men, no uniform system can be prescribed; but care should be taken to mark them on a part on which the die can be applied equally.

(8) The Wardens may engage the services of a smith, a hammer-man and bellows boy for performing the operation of stamping neatly.

IV. Fees.

24. The scale of fees prescribed for stamping weights and measures is given in Schedule I; but the Government may alter the rates from time to time. The scale will be so regulated that the fees realized are sufficient to meet the cost of the establishments necessary for stamping purposes. The establishment and other charges of each year should be so fixed as not to exceed the receipts of that year; but should there be any likelihood of a deficit at the end of a year, application for a special allotment should be made to the Government. The surplus receipts, if any, should be credited to the General Revenue. Every Warden shall maintain a register of weights and measures stamped and the fees collected.

Note:—In conducting the actual operation of testing, the stamping establishments should carry out free of extra charge any slight adjustment that may be found necessary, to make the weights and measures perfectly accurate, care however being taken not to attempt at corrections within the province of skilled workmen.

V. Inspection.

25. The Division Peishkars and the Superintendent, Devikulam Division, should inspect each party of the stamping establishments in their respective divisions as often as possible and ascertain whether the men understand their work and whether any unauthorised fees are collected. They should also note their remarks in an inspection book.

26. A report on the stamping operations should be submitted to Government by the Division Peishkars and the Superintendent, Devikulam Division, along with their annual departmental reports.
